Communicating With All Of Gods Creatures:

Communicating God's Word in a Complex World Daniel R. Shaw, Charles E. Van Engen, 2003-08-04 Communicating God's Word in a Complex World reaches out to the growing number of missionaries pastors Bible translators and teachers mission and theological educators and students dealing with communicating the gospel This is increasingly difficult in today's pluralist and global contexts What was God's message and how has spreading that message changed through the generations The answer to that question requires a hermeneutical process that seeks to understand the biblical text and the context in which it was originally presented R Daniel Shaw and Charles Van Engen say that contemporary proclaimers of God's word can model their approach after that of the writers of scripture who reinterpreted and restated their received texts for their audiences Thus Gospel communication is impacted by the way humans know God This in turn is informed by contexts Communicating God's Word in a Complex World draws lessons from the biblical authors themselves as a guide for how best to present God's message

Communication with All Life (Large Print 16pt) Joan Ranquet, 2010-06-21 Although Communication with All Life is about animal communication it isn't just a how-to book but a guide that will help you discern how much you're already exchanging feelings words and pictures with your pet Woven throughout the book are many stories to illustrate and support the theory that animal communication isn't something that you do or need to learn it just is By tuning in telepathically Joan Ranquet has helped thousands of people and animals deepen their connections with each other resolve behavioral problems assist in the process of death and dying and examine issues surrounding illness and accidents Many of the situations that are dealt with throughout the book are actually people perception problems rather than stories of an ill behaved dog cat horse bird or other pet Communication with All Life illustrates how to move past the emotional patterns that create unwanted behavior and ultimately demonstrates that animal companions give humans the opportunity to enact leadership and responsibility in their thoughts and feelings to ensure harmony at home

Spiritual Communications Henry Kiddle, 1879 **Asian Case Studies on Translating Christianity** Heejun Yang, 2024-03-14 Asian Case Studies on Translating Christianity brings historical expressions of Asian Christianity into contemporary theological conversation The book offers case studies of Jingjiao Christianity in Tang China the Jesuit mission in Ming China indigenous theology in colonial Korea and contemporary Asian American theology The case studies especially examine how the names and understandings of the Trinity have been changed in the processes of borrowing erasing and elevating the meanings of Eastern local concepts to translate the message of Christianity Not only are these diverse expressions of Christianity unique and valuable in and of themselves but they testify that diverse understandings are a God-given phenomenon Heejun Yang draws on contemporary theological hermeneutics to argue that it is the self-communicative nature of God that helps articulate the diverse understandings of God in these cases Yang posits the Triune God as both the starting and ending points of the Christian hermeneutic process and claims that this understanding can be a way for the church to embrace different

Christian communities while moving forward in their own unique complexities All God's Creatures Daniel P. Horan, 2020-07-07 The predominant stewardship model of creation is the result of an intentional effort to correct approaches that reinforce human sovereignty and the resulting environmental degradation However as All God s Creatures argues the stewardship model actually does not offer a correction but rather reinscribes many of the very same pitfalls After close analysis of the stewardship model this book identifies scriptural theological and philosophical sources to support the adoption of a community of creation paradigm Drawing on postcolonial theory this book proposes the concept of planetarity as a framework for conceiving the relationship between human and nonhuman creation and the Creator in a new way This theoretical framework is grounded by a retrieval of the medieval Franciscan theological and philosophical tradition The result is what can be called a postcolonial Franciscan theology of creation imagined in terms of planetarity providing a constructive and nonanthropocentric response to the need for a new conceptualization of the doctrine of creation
