Communication Strategies for People with Developmental Disabilities Ken Linfoot, 1994 *Biological and Behavioral Determinants of Language Development* Norman A. Krasnegor, Duane M. Rumbaugh, Richard L. Schiefelbusch, Michael Studdert-Kennedy, Esther Thelen, 2014-02-25 This book presents a current interdisciplinary perspective on language requisites from both a biological comparative perspective and from a developmental learning perspective Perspectives regarding language and language acquisition are advanced by scientists of various backgrounds speech hearing developmental psychology comparative psychology and language intervention This unique volume searches for a rational interface between findings and perspectives generated by language studies with humans and with chimpanzees Intended to render a reconsideration as to the essence of language and the requisites to its acquisition it also provides readers with perspectives defined by various revisionists who hold that language might be other than the consequence of a mutation unique to humans and might fundamentally not be limited to speech *Neurodevelopmental Strategies for Managing Communication Disorders in Children with Severe Motor Dysfunction* M. Beth Langley, Linda J. Lombardino, 1991

Psychological Evaluation of the Developmentally and Physically Disabled Jean-Pierre Fouque, Vincent B. Van Hasselt, 2013-06-29 The past decade has witnessed a considerable upsurge of clinical and research interest in the problems of developmentally and physically the fields of psychology disabled persons Indeed professionals from special education rehabilitation psychiatry and social work have all directed attention to the development and implementation of evaluation and remedial programs The heightened activity in this area is in part a result of early assessment research with these populations which provided preliminary evidence of difficulties in social and emotional adjustment in many disabled individuals In response to these findings many intervention efforts have been implemented to deal with these issues and improve the life situation of the disabled Also there were indications that developmentally and physically disabled children often were deprived of adequate educations As a result legal and legislative initiatives have been enacted in recent years to make public education available to all students irrespective of disability Central to all therapeutic and psychoeducational endeavors with the disabled is psychological evaluation Only through careful and comprehensive psychological evaluation can areas of deficit as well as strengths be identified Once treatment targets and goals have been ascertained psychological evaluation is needed to determine the efficacy of intervention strategies However the field of psychological evaluation in general and with disabled persons in particular has become highly specialized This is largely a function of the changing roles

of psychological evaluators *Language Development and Disorders* W. Yule, M. Rutter, 1987 Communication disabilities are common although their precise nature and degree of severity vary greatly among individuals They are among the most handicapping of disabilities because they isolate a person and in so doing restrict social educational and occupational opportunities One of the purposes of this book was to bring together theoretical practical and clinical knowledge from several disciplines that bear on language and communication into some reasonably accessible form The intent is to provide a broad and multi faceted view of language development and language disorders Thus contributions from education linguistics psychology pediatrics psychiatry neurology neuropsychology and speech therapy are included They describe our current knowledge of language development suggest classifications for language pathology outline what is known of the epidemiology of language difficulties consider assessment and therapy alternative communication systems and the impact of the new technology on communication aids The variety of perspectives that it provides will make it particularly useful to the range of specialists who are concerned with the development of communication skills and language disorders
