[Healthcare Communication for Virginia Community College System Nurse and Allied Health Programs](#) Mary Anne Keefer, 2011 This study examines communication skills in the nurse patient communication process through interdisciplinary data from the nurse and communication fields The call for improved communication competency over the last 20 years and the low rate of skill retention from remedial on the job communication workshops confirm the need for improved communication training at the educational level Research substantiates improved patient outcomes and patient satisfaction when relational communication is utilized in the nurse patient relationship Problems in creating an effective healthcare communication course are the absence of a theoretical framework and a multitude of definitions describing communication concepts and skills Community colleges educate over 60% of the nation s nurse and allied health professionals yet few Virginia community college nurse or

allied programs require a communication course Communication training is provided within clinical courses and frequently utilizes a task oriented approach Findings show an interrelationship between conceptualized behaviors such as therapeutic behaviors and interpersonal skill behaviors within relational communication that is not apparent in task oriented communication training A model healthcare relational communication course was designed to fill the gap between education and practice for communication competence for nurse and allied health students The model s framework is communication relational theory which includes both conceptual behaviors and multidimensional interpersonal skill behaviors An Introduction to Language and Communication for Allied Health and Social Care Professions Simone C. Bacchini,2023-07-24 Bringing insights from linguistics to those without a background in this field An Introduction to Language and Communication for Allied Health and Social Care Professions enables readers to better appreciate the ways in which language functions simultaneously as an instrument to encode and communicate meaning build and sustain interpersonal relationships and express identity Grounded in the understanding of language as a multifunctional interactional tool offered by sociolinguistics pragmatics and discourse analysis the book Provides readers with well grounded tools that they can use to inform their daily work as well as to reflect upon their own communicative practices and where necessary to improve them Features discussion points in the form of questions suggestions for reflection and small analysis tasks throughout Contains end of chapter summaries and suggestions for further reading An Introduction to Language and Communication for Allied Health and Social Care Professions is ideal as a core or supplementary textbook for students on degrees in public health social work social care nursing and other allied health professions who are taking courses in communication It is also an invaluable guide for qualified health and social care practitioners to support both their professional practice and their continuing professional development **Therapeutic Communications for Health Care** Carol Tamparo,Wilburta Lindh,2007-07-24 Health professionals today need a succinct yet brief text to guide them through the maze of communication with patients and consumers of health care All the usual dynamics are heightened when persons participating in communication are sick frustrated hurting and worried the central idea of this comprehensive text is that good therapeutic communication with patients will decrease the risk both to patient and provider of misunderstandings and will increase patient compliance and save time for everyone in the long run A wide variety of client profiles and appropriate therapeutic responses
