## **Communications And Cultural Analysis A Religious View:**

*Communications and Cultural Analysis* Michael Warren, 1992-08-30 This book explores how culture functions and intersects with religious groups particularly Christians It explores the way electronic communications especially film and television shape our world of meaning Using the theories of British thinker Raymond Williams as his framework Warren focuses on the actual process by which versions of reality are produced the production of signification He also draws on the ideas of Paulo Freire pointing out that cultural agency happens when individuals decide to exercise some judgment and control over the kinds of cultural material they will accept or resist If culture is a signifying system says Warren then religion is too Contrasting values from the wider culture create dilemmas for those trying to follow a religious life Choices either mirror the wider culture or reflect a culture of resistance Warren seeks to help the reader develop the skills of cultural analysis by paying attention to the images that support culture examining the life structures that support culture and paying attention to how any particular aspect of culture is produced Beyond all this however the author calls for a stance of resistance to all that violates human dignity and unity all the aspects of culture that persons with high religious ideals cannot accept

*The Handbook of Communication in Cross-cultural Perspective* Donal Carbaugh, 2016-08-19 This handbook brings together 26 ethnographic research reports from around the world about communication The studies explore 13 languages from 17 countries across 6 continents Together the studies examine through cultural analyses communication practices in cross cultural perspective In doing so and as a global community of scholars the studies explore the diversity in ways communication is understood around the world examine specific cultural traditions in the study of communication and thus inform readers about the range of ways communication is understood around the world Some of the communication practices explored include complaining hate speech irreverence respect and uses of the mobile phone The focus of the handbook however is dual in that it brings into view both communication as an academic discipline and its use to unveil culturally situated practices By attending to communication in these ways as a discipline and a specific practice the handbook is focused on and will be an authoritative resource for understanding communication in cross cultural perspective Designed at the nexus of various intellectual traditions such as the ethnography of communication linguistic ethnography and cultural approaches to discourse the handbook employs then a general approach which when used understands communication in its particular cultural scenes and communities
