## **Communicative Competence:**

**Teaching and Assessing Intercultural Communicative Competence** Michael Byram, 2020-12-08 This revised edition of Michael Byram's classic 1997 book updates the text in light of both recent research and critiques and commentaries on the 1st edition. Beginning from the premise that foreign and second language teaching should prepare learners to use a language with fluency and accuracy and also to speak with people who have different cultural identities, social values and behaviours, the book is an invaluable guide for teachers and curriculum developers, taking them from a definition of Intercultural Communicative Competence through planning for teaching to assessment. This edition refines the definitions of the five *savoirs* of intercultural competence and includes new sections on issues such as moral relativism and human rights, mediation, intercultural citizenship and teachers' ethical responsibilities. Competence M V Rodrigues, 2000 **Developing and Assessing Intercultural Communicative Competence** Ildikó Lázár, Michaela Čaňková, European Centre for Modern Languages, 2007-01-01 The aim of this publication is to assist teacher educators and language teachers in shifting the focus from linguistic competence to intercultural communicative competence. The materials on the accompanying CD-ROM include the theoretical background to teaching language and culture, detailed workshop and course planning guidelines, teaching materials and activities based on literature, films and songs, guidelines and tasks for assessment and descriptors of competences, intercultural communication workshop reports and our research articles about the intercultural dimension of foreign language teaching. FIT Publisher's description **Handbook of Communication Competence** Gert Rickheit, Hans

Strohner, 2008-08-27 In our everyday life, communicative processes are relevant in almost all situations. It is important to know whether you should say something which is adequate in the situation or whether it is better to say nothing at all. Communicative competence is fundamental for a successful life in our society as it is of great importance for all areas of life. Therefore, it is not surprising that communicative competence is the subject of many theoretical and empirical approaches and in consequence research on this topic is diverse. We focus our contributions on linguistic aspects of communication. In the centre of interest are linguistic oriented performances of different forms of communicative competence: language acquisition and language disorders. The topics of this book concern the description of methods for studying language in the brain, the interaction between language and cognition, discourse acquisition of children, literacy acquisition and its precursors, the use and acquisition of the sign language, models and training of writing and reading, nonverbal communicative competence, media competence, communication training, developmental dyslexia, the treatment of stuttering and the description of language disorders. *Communicative Competence* Sandra J. Savignon, 1997 Stressing the use of meaningful language at all stages of
