The Communicator's Commentary Sinclair B. Ferguson, 1988 **Communicator's Commentary** Myron S. Augsburger, 1991-05 *Human Significance in Theology and the Natural Sciences* Christopher L. Fisher, 2010-02-03

The Medieval Worldview that Regarded Human Beings as at the Center of God's plans for His universe has long been regarded as obsolete its synthesis of Christian theology and Greek philosophy having collapsed under the weight of Copernicus Galileo and Darwin The popular stereotype is that Science both in the Copernican revolution that dethroned the earth centered view of the cosmos and in subsequent developments in evolutionary theory and general relativity has marginalized and trivialized human existence revealing humanity's place in the cosmos to be accidental peripheral and ultimately meaningless However an investigation into both modern Christian theology and contemporary twenty first century Science reveals just the opposite providing solid evidence in the interdisciplinary dialogue concerning the significance of humanity within the universe In this important study Christopher Fisher analyzes several modern theologians including Wolfhart Pannenberg Karl Rahner and John Zizioulas to reveal how contemporary ecumenical theology is deeply and intrinsically committed to a high view of human cosmic significance as a consequence of Christianity's indelible Trinitarian and incarnational faith Fisher then demonstrates how research in contemporary natural Science confirms this finding in its own way as recent primate intelligence studies artificial intelligence research and even the quest for extra terrestrial intelligence reveal the wonder of human uniqueness A contemporary version of the teleological argument also resurfaces in consideration of cosmic evolutionary perspectives on human existence Even ecological concerns take on a new poignancy with the realization that among material creatures only human beings are capable of addressing the world's situation This interdisciplinary study uncovers the surprising coherence and convergence of Christian Theology and Natural Science on the subject of human existence and significance here at the beginning of the twenty first century and it highlights the very unique role of humanity in global and cosmic history Through an incisive study of several leading twentieth century theologians Chris Fisher explores the ecumenical consensus for a strong reading of human cosmic significance While acknowledging problems surrounding earlier forms of anthropocentrism he argues that Christian theology remains wedded to a high understanding of the place of human beings in the economy of creation and salvation This is a valuable contribution to an important debate in contemporary theology David Fergusson University of Edinburgh This is a fascinating work on the interface between theology and science The author's remarkable breadth of knowledge clarity of thought and lucid writing style enable him to help the reader to understand the coherence between science and faith This scholarly work is an irenic and well informed presentation of the Christian faith and will become one of the primary textbooks in theology philosophy of religion and philosophy of science Laurence W Wood Asbury Theological Seminary *A Biblical-Theological Introduction to the Old Testament* Miles V. Van Pelt, 2016-05-31 The Old Testament is not just a collection of disparate stories each with its own meaning and moral lessons Rather it's one cohesive

story tied together by the good news about Israel's coming Messiah promised from the beginning. Covering each book in the Old Testament, this volume invites readers to teach the Bible from a Reformed covenantal and redemptive historical perspective. Featuring contributions from twelve respected evangelical scholars, this gospel-centered introduction to the Old Testament will help anyone who teaches or studies Scripture to better see the initial outworking of God's plan to redeem the world through Jesus Christ. Old Testament Theology Paul R. House, 2012-11-30 Paul R. House provides a comprehensive theology of the Old Testament, carefully exploring each Old Testament book thematically, summarizing its content and showing its theological significance within the whole of the Old Testament canon. Student-friendly and useful to a wide audience, this impressive work has proved a profitable read for many. **Encountering the Old Testament**

(Encountering Biblical Studies) Bill T. Arnold, Bryan E. Beyer, 2024-10-01 This new edition of a bestselling evangelical survey of the Old Testament has been updated throughout. It is lavishly illustrated with four color images, maps, and charts and retains the pedagogical features that have made the book so popular: chapter outlines, objectives, and summaries; study questions; sidebars featuring primary source material and ethical and theological issues; lists of key terms, people, and places; further reading recommendations. Additional resources for students and instructors are available through Textbook eSources.

Revelation and the Two Witnesses Rob Dalrymple, 2011-06-10 The account of the two witnesses in Revelation 11 has been the subject of much intrigue over the years. Popular theologians have attempted to identify them with two individuals, perhaps Moses and Elijah. In *Revelation and the Two Witnesses*, Rob Dalrymple offers a thorough exegesis of Revelation 11 and concludes that the account of the two witnesses is the primary account in Revelation that depicts the people of God. Who are they? What is their commission? What was John's message to seven churches and to us? Whoever they are, we know this: they have a commission; they will suffer for it; and in the end, they are resurrected. **Subject Guide to Books in Print**, 1997
