## Communist Parties Of Western Europe:

The Communist Parties of Western Europe Neal R. Tannahill, 1978-12-04      The Communist Parties of Western Europe Neil McInnes, 1975      *West European Communist Parties after the Revolutions of 1989* Martin J. Bull, Paul M. Heywood, 2016-07-27 This book analyses the impact of the collapse of communism in Eastern Europe and the former Soviet Union on the Communist Parties of Western Europe Seven case studies covering the Italian French Spanish Portuguese Belgian British and German parties provide a tightly argued comparative perspective The conclusion assesses the range of responses to the dramatic events of 1989 91 and likely future direction of the west European communist movement It is argued that whilst it is no longer possible to talk of a coherent family of communist parties various individual parties some of them in revised form may continue to prosper      *Communism And Political Systems In Western Europe* David Albright, 2019-08-16 Developments of the 1970s suggest the need for a new approach to the analysis of communism in Western Europe During the early years after World War II Western observers tended to look upon the West European Communist parties as fundamentally an extension of communism in the USSR as national only in the narrow formal sense With the growing signs      **Power and the Party** Keith Middlemas, 1980 Efter en indledning om Kominternperioden Den Kommunistiske Internationale koncentrerer forfatteren sig om udviklingen inden for de vesteuropæiske kommunistpartier efter 2. Verdenskrig Der er separate kapitler om udviklingen inden for kommunistpartierne i Frankrig Italien Spanien og Portugal p grundlag af mange kilder og interviews med partimedlemmer m v      **Communist Parties in Western Europe** Henry Kissinger, 1977      West European Communism and American Foreign Policy Michael Arthur Ledeen, 1987-01-01 The great vogue of Eurocommunism came to an end with the return of the French and Italian Communist Parties to positions of opposition to authority in the late 1970s and the electoral confirmation that Spain's Communist Party would remain small As the vogue of communism with a human face passed The question of American policy toward Communists became far less pressing yet the question will almost certainly require attention in the future This is particularly true with respect to the Italian Communist Party which remains powerful in numbers and flexible in policy Michael Ledeen examines Communist Party participation in Western European governments since World War II and the ambivalent American foreign policy toward it He concentrates on the Italian Communist Party its history and its relations with the Soviet Union Togliatti Secchia Gramsci Nenni are identified as the major players in Italian communist and socialist politics The author explores in depth why the United States has been reluctant to become involved in internal Italian affairs and how this policy posture has strongly influenced the development of communism in Western Europe Ledeen shows that the strategies of contemporary West European Communist Parties are now roughly similar to those of the immediate post war period He argues that American intellectuals are as uncritical of Eurocommunism as they were after the first flush of Allied victory in World War II that the Carter administration's foreign policy was incoherent and that the United States needs a consistent ideological

approach to communism one that includes the capacity for action as well as reaction Michael Ledeen is a senior associate of the Center for Strategic and International Studies at Georgetown University and formerly taught history at Washington University He was the founding editor of The Washington Quarterly and is the author of among other works Grave New World The First Duce D Annunzio at Fiume and editor of U S Defense and Foreign Policy **Western European**

**Communists and the Collapse of Communism** David Bell,1993-08-11 This book examines the predicament of Western Communist Parties faced with the impact of reforms in the Soviet Union initiated by Gorbachev the collapse of the Eastern bloc and the end of really existing socialism in the USSR in the early 1990s **Communist Parties in Western Europe** M. Fennema,Michael Waller,1991 *National Communism in Western Europe* Howard Machin,1983-01-01

Eurocommunism and Socialism Fernando Claudín,2017-11-10 When Eurocommunism and Socialism was first published in English in 1978 the immediate political future of much of Western Europe was dominated by the prospect of the entry of mass Communist Parties into government What would this have meant for state and society in such countries as France Italy or Spain and what would it have meant for the nature of Communist Parties themselves Fernando Claudín author of the most important recent work on the history of the international communist movement from Lenin to Khrushchev was himself a Spanish Communist for 30 years A veteran of the Civil War and of underground work in Spain after it Claudín also lived for many years in Moscow and was a member of the Executive Committee and of the Secretariat of the PCE during its long exile Today in his new book Claudín sets the phenomenon of Eurocommunism in its historical perspective at once in the social crisis of the capitalist world during the 70 s and the developing crisis in the relations between the USSR and the Western Communist Parties since the invasion of Czechoslovakia Arguing that there is no other possible road to socialism in the West than that of genuine democracy he criticizes the official positions of the Communist Parties from a sympathetic yet independent standpoint Carefully documenting the course of each of the parties over the past decade he questions their residual silences and ambiguities over repression in Eastern Europe and their velleities of compromise with capital in Western Europe particularly marked he suggests in Italy At the same time Claudín emphasises the historic significance of the break represented by Eurocommunism with the whole past practice of Stalinism and the new perspectives of liberation it potentially allows for the working class in the West **The Changing Face of Western Communism** David

Childs,2015-07-30 This book first published in 1980 provides both a broad review and detailed analysis of the major issues that had been affecting the changing relations between Moscow and the other European Communist parties In discussing the Spanish Italian French and Scandinavian communist parties the individual contributors expose the weaknesses as well as the strengths of the parties and analyse the ideological and sociological roots This title will be of interest to students of politics

'Eurocommunism' Roy Godson,Stephen Haseler,1978-09-30 *Communist Parties in Western Europe* ,1977 The Communist Parties of Italy, France and Spain Peter Lange,Maurizio Vannicelli,2021-06-29 First published in 1981 The

Communist Parties of Italy France and Spain presents a comparative and integrative overview of the development of three Communist parties in the postwar Europe Through the systematic presentation of the most important documents of the Communist parties the book provides an access to the basic declarations and positions to illustrate the strategic and ideological evolution of these three parties in the advanced industrial democracies Eurocommunism the editors argue cannot be usefully understood as a phenomenon which suddenly appeared and equally as rapidly disappeared in the 1970s Rather it is a process of adaptation and change which characterizes the development of all three parties since World War II The explicitly comparative organisation of the documents into five basic themes general strategy alliances party organization international policy policy toward the communist movement allows the reader both to follow any single party in a specific policy area or to compare the parties in response to major domestic or international events of significance Rich in archival material this book will be an invaluable resource to scholars and researchers of European Politics comparative politics comparative communism and modern European history

**Origin, Ideology and Transformation of Political Parties** Vít Hloušek, Lubomír Kopeček, 2010 In this book Vít Hloušek and Lubomír Kopeček critically apply the party families approach to political parties in the Czech Republic Hungary Poland Slovakia and Slovenia By examining the political relevance of different party families Hloušek and Kopeček are able to assess the validity of this typology in the analysis of the transformation of political parties in this region

*The Crisis of Communism and Party Change* Juan Botella, Luis Ramiro Fernández, 2003

**The End of the Bolshevik Dream** Olga A. Narkiewicz, 1990-01-01

From Stalinism to Eurocommunism Ernest Mandel, 1978 Ernest Mandel's new book is a study of Eurocommunism unlike any other Written in the polemical tradition of Trotsky its sweep extends well beyond the immediate prospects of the Communist Parties of Western Europe Mandel traces the long historical process which has transformed the once embattled detachments of the Third International into the constitutionalist formations of historic compromise and union of the people today He then goes on to argue that the national roads to socialism of contemporary Eurocommunism are the bitter fruits of socialism in one country in the USSR Mandel's book contains trenchant and documented criticisms of the ideas of Santiago Carrillo in Spain the economic policies of the PCI in Italy and the PCF's theories of the State in France But it also sets these Western developments in the context of European politics as a whole discussing the Russian response to Carrillo the organizational attitudes of the CPSU to the Western parties and the emergence of major dissident currents in Eastern Germany sympathetic to Eurocommunism From Stalinism to Eurocommunism represents the first systematic and comprehensive critique from the Marxist Left of the new strategy of Western Communism It can be read as a barometer of the storms ahead in the European labour movement Back cover

**New International Communism** Lawrence L. Whetten, 1982

## Reviewing **Communist Parties Of Western Europe**: Unlocking the Spellbinding Force of Linguistics

In a fast-paced world fueled by information and interconnectivity, the spellbinding force of linguistics has acquired newfound prominence.
