The Communist Coup D'etat in Czechoslovakia., February 1948 Melvin P. Mabey, 1953 *And Not a Shot is Fired* Jan Kozák, 2021 One of the biggest mistakes people make is to think that the only means by which a Communist revolution is accomplished is by violence in the streets As a result too many countries have fallen over the years and the people didn't have a clue what was happening until they woke up one morning to find themselves enslaved This book by Jan Kozak who was a leader in the Communist Party of Czechoslovakia was originally written as a paper presented to a closed communist conference at the University of Prague in 1957 No one knows exactly how the original work reached the Free World but it was finally published in Great Britain in 1961 It documents how the communists were able to capture Czechoslovakia without the violent revolution that most think of when it comes to a communist takeover It offers lessons for Americans to help save our Republic as a free and independent country It documents the moves that can be gradually made law by law to strip a free people of their freedom And due to the ignorance of the people their acquiescence to this patient gradualism Only a well educated people with a moral base can be free An ignorant people will be subjected to servitude one way or another While this book shows how a people and their government can be subverted it does not show the solution to such tactics There is only one solution the education of the people as to the primary value of the foundations of Americanism and the government formed out of it coupled with constitutional action by elected officials and the electorate **Czechoslovakia enslaved** Hubert Ripka, 1962 **The Communist Coup in Czechoslovakia** Morton A.
