Communitarian Ideology and Democracy in Singapore Beng-Huat Chua,1997 This original balanced account presents a critical examination of the last three decades of political success in Singapore It provides an invaluable insight into the life of the regime for both students and lay readers Liberalism Disavowed Chua Beng Huat,2017-06-23 In Liberalism Disavowed Chua Beng Huat examines the rejection of Western style liberalism in Singapore and the way the People s Action Party has forged an independent non Western ideology This book explains the evolution of this communitarian ideology with focus on three areas public housing multiracialism and state capitalism each of which poses different challenges to liberal approaches With the passing of the first Prime Minister Lee Kuan Yew and the end of the Cold War the party is facing greater challenges from an educated populace that demands greater voice This has led to liberalization of the cultural sphere greater responsiveness and shifts in political rhetoric but all without disrupting the continuing hegemony of the PAP in government Crossing Borders in the Asia-Pacific James Cotton,2002 The impact across borders of transnational identities business links and ideas has been on the international political agenda for a long time These cross border phenomena have a steady and profound influence on domestic politics and international relations However they also represent a challenge because these factors can subvert accustomed views of sovereignty The essays in this book stress the diversity and influence as well as the limitations of cross border phenomena in the Asia Pacific a region home to the principles of non interference and respect for autonomy Emerging from this collection is a picture of an area dynamically affected by the penetration of ideas organised interests and financial flows Though national borders have become more porous state power and local identities still resist shape and modify cross border influences Singapore Politics Under the People's Action Party Diane K. capital talent and trade In the 14th century the island's prosperity rested on regulating the regional carrying trade passing through the Straits of Melaka In 1819 after a long period of decline the British East India Company revived the island's fortune by making Singapore a free port and trade sustained the city until the Japanese occupation and the postwar collapse of colonial rule After independence Singapore resumed its role as a major commercial and financial center but added facilities to make the island a regional centre for manufacturing More recently it has transformed its population into an educated and highly skilled workforce and has made the island an education hub that is a magnet for research and development in fields such as biotechnology Singapore's dramatic evolutionary struggle defies description as a sequentially unfolding narrative or merely as the story of a nation In this volume an international group of scholars examines the history of Singapore as a series of discontinuous and varied attempts by a shifting array of local and foreign actors to optimise advantages arising from the island's strategic location and overcome its lack of natural resources publisher website
