Community Power Grassroots Democracy The Transformation Of Social Life:

Community Power and Grassroots Democracy Michael Kaufman,1997 **Community Power and Grassroots Democracy** Michael Kaufman,Haroldo Dilla Alfonso,1997 The collected essays in this book provide a comparative examination of the process of grassroots mobilization and the development of community based forms of popular democracy in Central and South America The first part contains studies from individual countries on organizations ranging from those supported by governments and integrated into the country s political structure to groups that were organized against the existing political system The organizations studied included those focusing on a particular concern such as housing and those with wide responsibility for community affairs but all were organizations based on common interests where people lived and in some cases where people worked The second part offers theme studies on men women and differential participation problems and meanings associated with decentralization especially in relation to devolution of power to the local level and the construction of popular alternatives and the competing theoretical paradigms of new social movements and resource mobilization **The Routledge Handbook of Tourism Research** Cathy H.C. Hsu,William C Gartner,2012-08-21 The Routledge Handbook of Tourism Research is a compendium of some of the most relevant issues affecting tourism development today The topics addressed in this book provide some new thinking for those involved in tourism research This book takes the reader from the beginnings of tourism research to a discussion of emerging forms of tourism and selected examples of tourism development The underlying theoretical dimensions are reviewed analysed and discussed from a number of perspectives This book brings together leading researchers many of whom are members of the International Academy for the Study of Tourism to discuss tourism today and its future The works included in this volume are diverse in terms of geographical context research methodology root discipline and perspective This book represents studies based in Europe North America Oceania and Asia Research methodologies include both quantitative and qualitative Both macro and micro issues are discussed from the economic psychological sociological political science marketing and other perspectives which reflect the interdisciplinary nature of tourism studies This book is divided into 6 sections Section 1 considers the foundations for tourism research Section 2 discusses the implications for destination management and section 3 discusses planning for tourism development Section 4 covers human capital for tourism development And finally section 5 evaluates emerging forms of tourism and then section 6 offers insights into tourism evolution It offers the reader a comprehensive synthesis of this field conveying the latest thinking and research The text will provide an invaluable resource for all those with an interest in tourism research This is essential reading for students researchers academics of Tourism as well as those of related studies in particular Leisure Hospitality Development Studies **Palestinian NGOs in Israel** Shany Payes,2005-01-28 One in every six Israeli citizens is a Palestinian Arab While much has been written about the Palestinians of the West Bank and Gaza the struggle for political rights by Palestinian citizens of Israel remains largely unexplored Shany Payes offers a fresh look at

this struggle through analysis of the increasingly growing sector of Palestinian non governmental organisations Charting the political history of these associations over the last quarter of a century and running right up to developments during the recent Intifada she analyses the political repression of Palestinian civil society by the Israeli state and attempts by Palestinian NGOs in Israel to build a civil society in the face of such oppression Palestinian NGOs is required reading for all those interested in the Israel Palestine conflict minority rights and civil society A lively and original contribution to a field in which there is already much interest but where few works of any substance have been produced I enjoyed the work immensely and would certainly recommend it warmly both to students and to those with a lively interest in things Palestinian Philip Robins St Antony's College Oxford Provides a fresh insight into political repression of Palestinian civil society by the Israeli state and attempts by Palestinian NGOs to build a civil society in the face of such oppression The result is a unique piece of work which other academics would be hard pressed to emulate Gerard Clarke Centre for Development Studies University of Wales Swansea
