Evidence-Based Crime Prevention David P. Farrington,Doris Layton MacKenzie,Lawrence W. Sherman,Brandon C. Welsh,2003-09-02 Crime prevention policy and practice is on the whole far from objective Instead of being based on scientific evidence the crime policy agenda is seemingly driven by political ideology anecdotal evidence and programme trends Evidence Based Crime Prevention seeks to change this by comprehensively and rigorously assessing the existing scientific knowledge on the effectiveness of crime prevention programmes internationally Reviewing more than 600 scientific evaluations of programmes intended to prevent crime in settings such as families schools labour markets and communities this book grades programmes on their scientific validity using the scientific methods scale This collection which brings together contributions from leading researchers in the field of crime prevention will provide policy makers researchers and community leaders with an understandable source of information about what works what does not work and what is promising in preventing crime

Community-based Crime Prevention Projects ,1996 **Proactive Policing** National Academies of Sciences, Engineering, and Medicine,Division of Behavioral and Social Sciences and Education,Committee on Law and Justice,Committee on Proactive Policing: Effects on Crime, Communities, and Civil Liberties,2018-03-23 Proactive policing as a strategic approach used by police agencies to prevent crime is a relatively new phenomenon in the United States It developed from a crisis in confidence in policing that began to emerge in the 1960s because of social unrest rising crime rates and growing skepticism regarding the effectiveness of standard approaches to policing In response beginning in the 1980s and 1990s innovative police practices and policies that took a more proactive approach began to develop This report

uses the term proactive policing to refer to all policing strategies that have as one of their goals the prevention or reduction of crime and disorder and that are not reactive in terms of focusing primarily on uncovering ongoing crime or on investigating or responding to crimes once they have occurred Proactive policing is distinguished from the everyday decisions of police officers to be proactive in specific situations and instead refers to a strategic decision by police agencies to use proactive police responses in a programmatic way to reduce crime Today proactive policing strategies are used widely in the United States They are not isolated programs used by a select group of agencies but rather a set of ideas that have spread across the landscape of policing Proactive Policing reviews the evidence and discusses the data and methodological gaps on 1 the effects of different forms of proactive policing on crime 2 whether they are applied in a discriminatory manner 3 whether they are being used in a legal fashion and 4 community reaction This report offers a comprehensive evaluation of proactive policing that includes not only its crime prevention impacts but also its broader implications for justice and U S communities *Preventing Crime & Promoting Responsibility* ,1995 *Working as Partners with Community Groups* ,1994
