Community Work:

The Making of Community Work David N. Thomas, 2024-11-01 Originally published in 1983 *The Making of Community Work* is the outcome of a two year study of community work in the United Kingdom The main purpose of the study was to review the development of community work and to suggest some of the issues in practice and training that might be important in the 1980s Much of the first part of the book is taken up with the emergence of community work as an occupation David Thomas tries to clarify its contribution to a number of political and social processes and to define community work in a way which distinguishes it from other kinds of interventions The second part of the book deals with training research literature and employment in community work it includes a review of college and field based training opportunities and a critical discussion of the state of theory and ideology in the occupation It was hoped it would be an important source of ideas and inspiration for the years ahead It was the first major review of community work since its re discovery in the 1960s it will still be of interest to all those involved in community work or wishing to understand its influence on other professions The book was intended for fieldworkers administrators policy makers trainers and students in community work and in related occupations and disciplines Thomas presents his ideas clearly and his ability to look critically at some of the basic assumptions in community work makes for stimulating and enjoyable reading **Analysing**

University of London UK Popple's book was one of the key overviews of British community work when it first appeared in 1995. In the last few years the need for a revised and updated version has been increasingly obvious and Popple has now obliged. The last twenty years have seen substantial changes in the political economic and organisational context within which community work operates and Popple has fully reflected this whilst remaining clear about its basic tenets and goals. This is a highly welcome addition to contemporary community work literature. Gary Craig Professor of Community Development and Social Justice Durham University UK

Community Work Alan C. Twelvetrees, 1991 Social work is at an important stage in its development. All professions must be responsive to changing social and economic conditions if they are to meet the needs of those they serve. This series focuses on sound practice and the specific contribution which social workers can make to the well-being of our society.

Community Work Alan Twelvetrees, 2008-06-18 Drawing on his own professional experience Alan Twelvetrees addresses the needs of students, field-level community workers and managers. Both theory and practice are described in a highly readable and honest way and the updated fourth edition of this bestseller includes placing community work at the centre of neighbourhood renewal.

Community Work: Theories, Experiences and Challenges Kalpana Goel, Venkat Pulla, Abraham P. Francis, 2014-10-01 This book revisits community development especially questioning the meaning of the term community in the changing global and international context. The nature and dynamics of what constitutes community are changing to suit the needs of people living in a technologically advanced nature of life. Communities that were based on face-to-face interactions, sense of belonging and our feelings are being replaced or overtaken by virtual communities. What is seen is that face-to-face human interaction is being minimized by technologically advanced ways of communicating such as Facebook, Twitter, Skype and various other such mechanisms that have traversed physical boundaries and made human interaction possible. This new development has also been instrumental in generating new ideologies, new ways of working with people and addressing human causes. The book delivers practical advice and shares strategies that are based on the real-life experience of working with communities across the nations. It gives breadth and depth of knowledge on community development theory, practice, principles, values and illustrates implications for practice based on research and practice experiences that has wider applicability. All the chapters discuss the community development approach, method as a strategy to bring about change in the society. Following a preliminary discussion by Kalpana Goel of the meanings of community and community development, all the chapters discuss the community development approach, method as a strategy to bring about change in the society.
