Análisis pragmatolingüístico de resoluciones de conflictos: las mediaciones laborales. Propuestas de investigación Susana Rida Rodríguez, 2008-05-19. Nuestras pretensiones en esta investigación se centran en analizar las mediaciones laborales desde la perspectiva de la pragmatolingüística si bien es cierto que para delimitar el terreno propio de este género discursivo hacemos un estudio comparativo de los juicios los arbitrajes las conciliaciones y las mediaciones en este último caso abordamos también las mediaciones educativas en contextos interculturales. Para llevar a cabo este análisis ofrecemos un capítulo introductorio donde tratamos el conflicto así como una aclaración sobre los géneros extrajudiciales de resolución de conflictos haciendo hincapié en las mediaciones. A continuación ofrecemos un repaso diacrónico de estos géneros anexo 1. Del mismo modo aportamos un estado de la cuestión comentando algunos trabajos que se han realizado sobre este tema cuya base sea lingüística en particular o bien comunicativa en general. En el apartado de fundamentación teórica incluimos la descripción del marco comunicativo puesto que en los distintos géneros analizados nos encontramos con una estructura tridimensional en lugar de los clásicos estudios binarios que habitualmente han sido descritos en las investigaciones sobre comunicación. De otro lado mostramos un análisis léxico semántico de los diferentes vocablos que estamos manejando sirviéndonos de fuentes tan dispares como las diversas ediciones de los diccionarios de la Real Academia de la Lengua Española diccionarios jurídicos manuales de derecho y manuales sobre los métodos extrajudiciales de resolución de conflictos. También presentamos un estudio de las

Ni tú ni yo, Cómo ganar dinero extra Félix Zajdman, 1994. Gestión de compras. Emilio Martínez Moya, 2007. El objetivo de la función de compras es el de satisfacer las necesidades de la Empresa con elementos externos a la misma obteniendo la mayor rentabilidad del dinero invertido pero hay que hacer compatible este objetivo inmediato corto plazo con la contribución de Compras conjuntamente con el resto de áreas de la Empresa en el logro de sus fines bien sean estos de carácter coyuntural elevar el beneficio o estratégicos mejorar la posición competitiva. Con este

planteamiento inicial en los capítulos que se desarrollan habrá que plantearse además de los objetivos tradicionales de la Gestión de Compras: Aprovechamientos, provisiones, stocks, negociación de precios, otros objetivos que ya forman parte de la actividad cotidiana del Departamento de Compras en la Empresa de vanguardia, prospección continua de otras fuentes de aprovisionamiento, normalización de materiales, alternativas externas a la fabricación, etc.

Una nueva forma de negociar Gavin Kennedy, 1999. La clave del éxito en la negociación no está en alternar un comportamiento duro con uno cortés sino en fundir ambos: yo te doy algo de lo que tú quieres a cambio de que me concedas algo de lo que yo deseo. Esta expresión contiene la esencia de las conversaciones negociadoras entre un comportamiento que toma y otro que queda: existe la actitud del que negocia basada en la comunicación en dos sentidos. El autor, toda una autoridad mundial en la materia, nos presenta una visión novedosa en la que por primera vez se abordan los fundamentos de la negociación en el mundo real: esto es, se analiza a las personas tal como son realmente, no como se supone que son y tal como actúan realmente, no como dicen que actúan. El núcleo del libro lo constituye un proceso en cuatro frases: preparar, debatir, proponer y pactar, en cuya exposición Kennedy usa sus conocimientos sobre comportamiento humano para brindar un juego universal de herramientas a quienes negocian en cualquier lugar del mundo. Gavin Kennedy es profesor en la Edinburgh Business School y director de una empresa de consultoría internacional dedicada a las técnicas de negociación.
