The Works of Shakespeare: Winter's tale. Comedy of errors. Macbeth. King John William Shakespeare, Henry Norman Hudson, 1881 **The Comedy of Errors** William Shakespeare, 2004-02-26 The New Cambridge Shakespeare appeals to students worldwide for its up to date scholarship and emphasis on performance The series features line by line commentaries and textual notes on the plays and poems Introductions are regularly refreshed with accounts of new critical stage and screen interpretations For this second edition of The Comedy of Errors Ros King has revised T S Dorsch's renowned text and commentary and written a completely new introduction to the work She argues that the play cannot be regarded merely as a farcical romp based on a classical model but that it belongs to the critically misunderstood genre of tragicomedy Emphasising the seriousness that underlies the text she pays special attention to the play's religious imagery and at the same time engages fully with its lightness of touch and its continuing popularity in the theatre The volume also features accounts of recent and historical performances and an updated reading list *The Works of William Shakespeare: The comedy of errors. Much ado about nothing. Love's labor lost. A midsummernight's dream. The merchant of Venice* William Shakespeare, 1880 **A MIDSUMMER NIGHT'S DREAM BY WILLIAM SHAKESPEARE** Singh, Ishita (Ed.), 2019-07-01 A Midsummer Night's Dream is William Shakespeare's fourth comedy and is ranked amongst his best and most complex comedies The metadramatic features and the centrality of labouring class characters makes this comedy different from his others It was written in 1596 The Play A Midsummer Night's Dream a romantic comedy is a dramatic text that draws attention to the very fine balance between tragedy and comedy order and chaos reality and illusion romance and violence and tyranny and rebellion The action of the play takes place over two days and four interwoven plots the wedding of Hippolyta the Amazonian queen and Theseus Duke of Athens the discord in the Athenian forest due to Titania and Oberon the Fairy Queen and King respectively the inconstant love of young Athenians Hermia Helena Demetrius and Lysander and the practice and performance of the play within the play by Quince and company The book comes along with A comprehensive introduction to the play Fully annotated and complete text Act wise plot summary Critical Essays *Shakespeare's comedy of the Merchant of Venice, with intr. remarks and notes by D. Morris* William Shakespeare, 1874 **Shakespeare's Stage Traffic** Janet Clare, 2014-01-09 Shakespeare's unique status has made critics reluctant to acknowledge the extent to which some of his plays are the outcome of adaptation In Shakespeare's Stage Traffic Janet Clare re-situates Shakespeare's dramaturgy within the flourishing and competitive theatrical trade of the late sixteenth and early seventeenth centuries She demonstrates how Shakespeare worked with materials which had already entered the dramatic tradition and how in the spirit of Renaissance theory he moulded and converted them to his own use The book challenges the critical stance that views the Shakespeare canon as essentially self-contained moves beyond the limitations of generic studies and argues for a more conjoined critical study of early modern plays Each chapter focuses on specific plays and examines the networks of

influence exchange and competition which characterised stage traffic between playwrights including Marlowe Jonson and Fletcher Overall the book addresses multiple perspectives relating to authorship and text performance and reception

Literary Detective Work on the Computer Michael P. Oakes,2014-05-15 Computational linguistics can be used to uncover mysteries in text which are not always obvious to visual inspection For example the computer analysis of writing style can show who might be the true author of a text in cases of disputed authorship or suspected plagiarism The theoretical background to authorship attribution is presented in a step by step manner and comprehensive reviews of the field are given in two specialist areas the writings of William Shakespeare and his contemporaries and the various writing styles seen in religious texts The final chapter looks at the progress computers have made in the decipherment of lost languages This book is written for students and researchers of general linguistics computational and corpus linguistics and computer forensics It will inspire future researchers to study these topics for themselves and gives sufficient details of the methods and resources to get them started **Class List** Bangor Public Library (Bangor, Me.),1907
