

Populations of Galactic X-ray (compact) sources visible to Spectrum-RG

A detailed image of a spiral galaxy, likely the Milky Way, viewed from an angle. The central bulge is a bright, glowing yellow-white oval, representing the core of the galaxy. The spiral arms are composed of numerous stars and interstellar dust, appearing as a complex, swirling pattern of blue and white light against the dark background of space. The overall shape is roughly circular, with the arms winding outwards from the center.
