A Book of Evidence Nancy L. Kuehl, 2013-03-08 Jesus was a Jew living in a Jewish culture and under Jewish laws laws that governed the people of Israel at a time of conflict with their Roman overlords A Book of Evidence takes into consideration the history of first century Jerusalem and is a unique presentation of the passion event written from a Jewish legal standpoint Find out why and how Jesus came to trial how the politics of the age and a corrupt government played a role in bringing him to death An examination of the numerous crimes of which Jesus was accused results in a reasonable explanation of the real blasphemy that caused him to be executed and an

investigation into crucifixion as it was known during first century Jewish law Was the Jewish trial legal Was it a trial at all Was there a Roman trial or a simple hearing Where was the real execution site and burial tomb All these questions are answered in this gripping book Follow step by step along the path of Jesus during the Passover from the Garden of Gethsemane through the trials to the brutality of the execution and on to the garden tomb at Bethphage from which he was resurrected

Economics of Good and Evil Tomas Sedlacek, 2011-07-01 Tomas Sedlacek has shaken the study of economics as few ever have Named one of the Young Guns and one of the five hot minds in economics by the Yale Economic Review he serves on the National Economic Council in Prague where his provocative writing has achieved bestseller status How has he done it By arguing a simple almost heretical proposition economics is ultimately about good and evil In *The Economics of Good and Evil* Sedlacek radically rethinks his field challenging our assumptions about the world Economics is touted as a science a value free mathematical inquiry he writes but it's actually a cultural phenomenon a product of our civilization It began within philosophy Adam Smith himself not only wrote *The Wealth of Nations* but also *The Theory of Moral Sentiments* and economics as Sedlacek shows is woven out of history myth religion and ethics Even the most sophisticated mathematical model Sedlacek writes is de facto a story a parable our effort to rationally grasp the world around us Economics not only describes the world but establishes normative standards identifying ideal conditions Science he claims is a system of beliefs to which we are committed To grasp the beliefs underlying economics he breaks out of the field's confines with a tour de force exploration of economic thinking broadly defined over the millennia He ranges from the epic of Gilgamesh and the Old Testament to the emergence of Christianity from Descartes and Adam Smith to the consumerism in *Fight Club* Throughout he asks searching meta economic questions What is the meaning and the point of economics Can we do ethically all that we can do technically Does it pay to be good Placing the wisdom of philosophers and poets over strict mathematical models of human behavior Sedlacek's groundbreaking work promises to change the way we calculate economic value
