Media Authorship Cynthia Chris, David A. Gerstner, 2013 Contemporary media authorship is frequently collaborative participatory non site specific or quite simply goes unrecognized In this volume media and film scholars explore the theoretical debates around authorship intention and identity within the rapidly transforming and globalized culture industry of new media Defining media broadly across a range of creative artifacts and production cultures from visual arts to videogames from textiles to television contributors consider authoring practices of artists designers do it yourselfers media professionals scholars and others Specifically they ask What constitutes media and authorship in a technologically converged globally conglomerated multiplatform environment for the production and distribution of content What can we learn from cinematic and literary models of authorship and critiques of those models with regard to authorship not only in television and recorded music but also interactive media such as videogames and the Internet How do we conceive of authorship through practices in which users generate content collaboratively or via appropriation What institutional prerogatives and legal debates around intellectual property rights fair use and copyright bear on concepts of authorship in new media By addressing these issues Media Authorship demonstrates that the concept of authorship as formulated in literary and film studies is reinvigorated contested remade even reauthored by new practices in the digital media environment

Artificial Intelligence and Human Existence Akanksha Srivastava, A.V. Senthil Kumar, Disha Maheshwari, Samrat Ray, 2025-12-22 Artificial Intelligence AI has become part and parcel of many aspects of our lives impacting how we approach tasks and understand the world around us This book recognizes the impact that Artificial Intelligence AI has on education computer science and society Taking an interdisciplinary approach it looks at the positive and negative implications and delivers a comprehensive understanding of how the integration of AI is shaping the future of human existence This book covers twelve

topics that reveal the links between AI and humans The topics range from the transformational role of technology in education to the ethical considerations surrounding AI s application plus many more Specifically it investigates how AI algorithms are pushing the boundaries of inventions in computer science and driving innovations in human computer interaction and software development through themes such as Computer Science and Technological Frontiers It also reflects on the societal impact of AI and offers tools to navigate the changing landscape of technology and humanity With discussions on the latest advancements in AI and their implications for future innovations readers of this book will learn of the ethical challenges posed by AI through in depth analysis including coverage of equity privacy and algorithmic bias Artificial Intelligence and Human Existence Insights on Education Technology and Society is for researchers educators policymakers in the fields of human factors human computer interaction and computer science plus anyone interested in the links between AI and human society

Copyright and Anonymity in the Creative User-Generated World Rachel Maguire,2025-05-01 This book explores the relationship between copyright law online anonymity and creative user generated content CUGC Presenting original empirical findings the book evaluates the co existence of copyright law and normative systems regulating a CUGC landscape made up of artists photographers and writers and makes novel recommendations for copyright reform It takes a multi jurisdictional approach across Anglo American and EU legal systems using the UK USA and Germany as representative jurisdictions for legal analysis Qualitative findings are drawn from creators and communities on Reddit and 4chan Copyright subsists in much CUGC but pervasive anonymity makes it difficult for the law to regulate it effectively Simultaneously anonymity offers creative benefits in a way that highlights flaws in traditional justifications of copyright Comparisons between community norms and copyright law identify practical differences but also fundamental compatibilities in terms of ownership expectations However the simultaneous existence of legal and normative enforcement mechanisms complicates matters for

creators and potential users with negative implications for creativity and copyright law While existing reform efforts have made suggestions to create a UGC exception these overlook and undermine the role of CUGC creators as copyright holders This can be addressed through the consideration of a framework of supplementary CUGC guidelines when developing such reforms This valuable resource for researchers and students provides a distinct perspective in framing CUGC creators as copyright holders examining online anonymity as a pivotal factor influencing regulation The Motion Picture Guide Jay Robert Nash, Stanley Ralph Ross, 1985 **People of Today**, 2006 The Complete Guide to Becoming a UGC Content Creator and How to Get Started Jai Cadell, 2024-02-27 UGC content creators are people who create UGC on behalf of their companies They are often employees or contractors who are given specific tasks to create UGC under the company's brand The UGC they create is often a work of art and may be considered copyrighted by the artist which then falls within a company's brand guidelines Some examples are A marketing team creates videos UGC to advertise their product A YouTube channel creates videos related to their product or service A Facebook page uses images from users' photo albums in an ad
