The Commonsense Book of Wine Leon David Adams,1958 *Reverse Wine Snob* Jon Thorsen,2015-06-16 Most rational people don t pay 40 for 20 items And yet with wine it happens all the time Wine can be an expensive hobby Founder of the popular site ReverseWineSnob com Jon Thorsen is an unapologetic frugal wine consumer He flips wine snobbery on its head by pushing a 20 or less mantra Reverse Wine Snob is designed to help wine drinkers stop wasting money and get the most satisfaction out of their drinking dollars It reveals Thorsen s Ten Tenets of Reverse Wine Snobbery ten beliefs that eliminate myths about wine as well as a unique rating system that includes the cost of the bottle so that there is satisfaction in both taste and price In Jon s unique system the more expensive a wine the better it must taste Reverse Wine Snob explains The number one rule all wine drinkers should follow no matter what the wine snobs say How to shop for wine at stores like the nation s 1 wine retailer Costco and Trader Joe s The regions and varieties of wine that give the best value Why the price of a wine has nothing to do with its taste Why the distribution system in the US is broken which costs you money and limits your wine choices Tons of Jon s very favorite wine picks Jon dapples in every kind of wine from 10 kitchen sink blends to the 20 Saturday Night Splurge so delicious it s worth twice the price Reverse Wine Snob brings plain old common sense to the wine industry and encourages wine lovers to explore the world of inexpensive quality wine Skyhorse Publishing along with our Good Books and Arcade imprints is proud to publish a broad range of cookbooks including books on juicing grilling baking frying home brewing and winemaking slow cookers and cast iron cooking We ve been successful with books on gluten free cooking vegetarian and vegan cooking paleo raw foods and more Our list includes French cooking Swedish cooking Austrian and German cooking Cajun cooking as well as books on jerky canning and preserving peanut butter meatballs oil and vinegar bone broth and more While not every title we publish becomes a New York Times bestseller or a national bestseller we are committed to books on subjects that are sometimes overlooked and to authors whose work might not otherwise find a home

Leon D. Adams' Commonsense Book of Wine Leon David Adams,1958 **Leon Adams' Commonsense Book of Wine** Leon David Adams,1975 Wine Decoded Adrian Garrett,2020-01-19 Choosing the right wine for you for a gift at a restaurant can be quite intimidating Could it be made easier Does the wine list at the restaurant seem like rocket science to you Do you find yourself panicking at the store and picking the wine with the prettiest label Have you been disappointed by the wine you bought that way Well we probably all have made the mistake of getting the wrong kind of wine It s not too bad if you bought the bottle for yourself and decided you hated it But what if you bought a sweet red wine as a gift only to find

out the recipient's tastes are different That's a decent portion of embarrassment right there A well picked wine can make or break a meal too Forgetting the rules like only whites for fish a wine that's too robust will drown the steak you wanted to enjoy That way you will have wasted money twice on food you can't taste and on wine you don't enjoy Can there be a way to avoid all that confusion Thankfully yes and you don't have to go through years of rigorous expensive training to become a wine taster There's very little science to it and all the equipment you need you already have your eyes nose and tongue From the moment you uncork the bottle to the last sip of your wine there's a whole journey ahead of you that you have been missing all this time Just like finding an Easter egg in a movie you love knowing how to find out the subtleties in wine can be truly satisfying You've spent your hard earned money on that wine so why not enjoy it to its fullest potential There could be a whole new world right at the rim of your glass In *Wine Decoded* you will discover How using just one sense can tell you a lot about your wine What unexpected color to look for in your red hint it's not red What are those tiny crystals in the bottle and are they dangerous The array of hues and colors your wine can have How to hone your wine tasting skills with simple exercises The incredible depth of notes hidden within your glass Whether smelling rocks leather or tobacco in your wine is good or bad How to recognize if the wine has faults that made it go bad before you drink it And much more Go beyond what you know without leaving your home well except for grocery shopping to get wine you don't need to be professionally trained to become a good wine taster Besides good wine doesn't also need to be expensive Sometimes you pay more for the bottle than the wine itself Amaze your friends with your abilities and never buy the wrong type of wine again You will notice how your taste in wine grows in less than a month Gone will be the days of cluelessly blindly picking a wine that sounds fancy or looks pretty Life is too short to drink bad wine Pop the cork on the most incredible experiences you will unveil the mysteries of every bottle with ease Just click Add to cart and ready your glass
