Communications Computation Control And Signal Processing A Tribute To Thomas Kailath:

Communications, Computation, Control, and Signal Processing Arogyaswami Paulraj, Vwani Roychowdhury, Charles D. Schaper, 2012-12-06 A Paulraj V Roychowdhury and C Schaper Dept of Electrical Engineering Stanford University Dept of Electrical Engineering UCLA Innumerable conferences are held around the world on the subjects of communications computation control and signal processing and on their numerous subdisciplines Therefore one might not envision a coherent conference encompassing all these areas However such an event did take place June 22-26 1995 at an international symposium held at Stanford University to celebrate Professor Thomas Kailath's sixtieth birthday and to honor the notable contributions made by him and his students and associates The depth of these contributions was evident from the participation of so many leading figures in each of these fields Over the five days of the meeting there were about 200 attendees from eighteen countries more than twenty government and industrial organizations and various engineering mathematics and statistics faculties at nearly 50 different academic institutions They came not only to celebrate but also to learn and to ponder the threads and the connections that Professor Kailath has discovered and woven among so many apparently disparate areas The organizers received many comments about the richness of the occasion A distinguished academic wrote of the conference being the single most rewarding professional event of my life The program is summarized in Table 1.1 a letter of reflections by Dr C Rohrs appears a little later

Informatics in Control, Automation and Robotics I José Braz, Helder Araújo, Alves Vieira, Bruno Encarnação, 2006-05-06 The present book includes a set of selected papers from the first International Conference on Informatics in Control Automation and Robotics ICINCO 2004 held in Setúbal Portugal from 25 to 28 August 2004 The conference was organized in three simultaneous tracks Intelligent Control Systems and Optimization Robotics and Automation and Systems Modeling Signal Processing and Control The book is based on the same structure Although ICINCO 2004 received 311 paper submissions from 51 different countries in all continents only 115 were accepted as full papers From those only 29 were selected for inclusion in this book based on the classifications provided by the Program Committee The selected papers also reflect the interdisciplinary nature of the conference The diversity of topics is an important feature of this conference enabling an overall perception of several important scientific and technological trends These high quality standards will be maintained and reinforced at ICINCO 2005 to be held in Barcelona Spain and in future editions of this conference Furthermore ICINCO 2004 included 6 plenary keynote lectures and 2 tutorials given by internationally recognized researchers Their presentations represented an important contribution to increasing the overall quality of the conference and are partially included in the first section of the book
