Communism In South East Asia:

Communism in South-east Asia Justus Maria Van der Kroef, 1980 **China and Southeast Asia** Jay Taylor, 1974

Soviet Strategies in Southeast Asia Charles B. McLane, 2015-12-08 This study's main concern is with the growth of Communism within Burma Thailand Malaya Indonesia Indochina and the Philippines The author explores the origin and fate of these indigenous movements their role in domestic politics and relationship to the metropolitan parties in the case of colonial dependencies and to the Soviet Union and their success or failure under the conditions of independence He also assesses the influence of Communist experience in China the formation of Russian policy in Southeast Asia and the policies of the domestic Communist parties Originally published in 1966 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 *Nationalism and Communism in East Asia* W. Macmahon Ball, 1956 ...*Communism in Southeast Asia*, by J.B. Jack Henry Brimmell, J. B. Brimmell, Governments and Rebellions in Southeast Asia Chandran Jeshurun, 1985

Communism in South East Asia J. H. Brimmell, 1974 "*How the Dominoes Fell*" John H. Esterline, Mae H. Esterline, 1990 This new edition comprises the historical political and economic accounts of Southeast Asia SEA contained in the First Edition plus the authors reinterpretation based on events in SEA from 1986 to 1990 The study underscores characteristics of indigenous and colonial political cultures the influence of nationalism and the impact of the Vietnam War on the region A watershed in Southeast Asian and world affairs the war in Vietnam is addressed at length in the chapter on Vietnam Other areas of concern in this new edition include Kampuchea Cambodia Malaysia Singapore Burma Thailand Indonesia Philippines ASEAN and Regional Change **Communism in South-east Asia** Justus Maria Van der Kroef, 1981

Witness to Viet Nam Alan Glyn, 1968 Southeast Asia's Cold War Ang Cheng Guan, 2018-02-28 The historiography of the Cold War has long been dominated by American motivations and concerns with Southeast Asian perspectives largely confined to the Indochina wars and Indonesia under Sukarno Southeast Asia's Cold War corrects this situation by examining the international politics of the region from within rather than without It provides an up to date coherent narrative of the Cold War as it played out in Southeast Asia against a backdrop of superpower rivalry When viewed through a Southeast Asian lens the Cold War can be traced back to the interwar years and antagonisms between indigenous communists and their opponents the colonial governments and their later successors Burma Malaysia Singapore Brunei and the Philippines join Vietnam and Indonesia as key regional players with their own agendas as evidenced by the formation of SEATO and the Bandung conference The threat of global Communism orchestrated from Moscow which had such a powerful hold in the West

passed largely unnoticed in Southeast Asia where ideology took a back seat to regime preservation China and its evolving attitude toward the region proved far more compelling the emergence of the communist government there in 1949 helped further the development of communist networks in the Southeast Asian region Except in Vietnam the Soviet Union's role was peripheral managing relationships with the United States and China was what preoccupied Southeast Asia's leaders The impact of the Sino Soviet split is visible in the decade long Cambodian conflict and the Sino Vietnamese War of 1979 This succinct volume not only demonstrates the complexity of the region but for the first time provides a narrative that places decolonization and nation building alongside the usual geopolitical conflicts It focuses on local actors and marshals a wide range of literature in support of its argument Most importantly it tells us how and why the Cold War in Southeast Asia evolved the way it did and offers a deeper understanding of the Southeast Asia we know today *Communism in South East Asia* Jack Henry BRIMMELL,1976 **Communism in South East Asia** Jack Henry Brimmell,1959 *South East Asia in International Politics, 1941-1956* Evelyn Speyer Colbert,1977 **30 Years On** Daljit Singh,Lye Liang Fook,2021-07-14 The year 2021 marks the thirtieth anniversary of the signing of the Cambodian Peace Agreements which ended the Cambodian conflict and the Cold War in Southeast Asia Communism was a perennial concern in Singapore and Malaya later Malaysia from 1948 into the 1980s a concern which younger generations may not appreciate The threat came largely from the Communist Party of Malaya CPM supported by China and from Vietnam The CPM waged a guerrilla war in Malaya They were defeated by 1960 but tried to revive the insurgency in the 1970s In Singapore they attempted to attain political power through a united front with the People's Action Party during the 1950s The victory of the communists in the Vietnam War in 1975 alarmed non communist Southeast Asia The concern was aggravated by Vietnam's invasion of Cambodia in 1978 ASEAN states strongly opposed Vietnam's action on the grounds that the invasion and occupation of a sovereign country violated a fundamental principle of international law Successive UN General Assembly resolutions supported the ASEAN position with significant majorities Thailand was pivotal to the security of the rest of non communist Southeast Asia Had it succumbed to Vietnam's pressures and reached an accommodation with Hanoi the security of the rest of Southeast Asia would have been endangered Thailand stood firm Had it not done so the people of Southeast Asia would be living in a different world today *Communism and Reform in East Asia (RLE Modern East and South East Asia)* David S. G. Goodman,2015-04-10 The West no longer regards communism in East Asia as a threat On the contrary because the communist party states of East Asia appear to be undergoing a process of reform directed primarily at economic modernization it is now regarded as a potential market The West's attitude is reinforced by the recognition of East Asia's economic importance more generally a perception which in itself undoubtedly stimulated reform in the region's communist party states The causes extent and consequences of reform in the East Asian communist party states are the concerns of the contributors to this volume first published in 1988 It includes chapters on the reform process in China North Korea Vietnam

and Mongolia as well as examinations of the roles played by both China and the Soviet Union in the Asia Pacific region They demonstrate that a belief in a simple single process of economic and political liberalization brought about by the drive for economic modernization the production imperative is a misleading argument Although the production imperative might act as a stimulus to reform it is neither a sufficient nor even a necessary condition In individual countries the communist party's search for legitimacy a change of leadership or the relationship with the USSR have equally been the spur to reform The drive for economic modernization may even be a consequence of the communist party's desire to reform rather than a cause The absence of a uniform pattern does not detract from the potential consequences of economic and political change These challenge socialist thinking on the nature of collective life ownership and rural society

Southeast Asia and the Cold War Albert Lau, 2012 The origins and the key defining moments of the Cold War in Southeast Asia have been widely debated This book focuses on an area that has received less attention the impact and legacy of the Cold War on the various countries in the region as well as on the region itself The book contributes to the historiography of the Cold War in Southeast Asia by examining not only how the conflict shaped the milieu in which national and regional change unfolded but also how the context influenced the course and tenor of the Cold War in the region It goes on to look at the usefulness or limitations of using the Cold War as an interpretative framework for understanding change in Southeast Asia Chapters discuss how the Cold War had a varied but notable impact on the countries in Southeast Asia not only on the mainland countries belonging to what the British Foreign Office called the upper arc but also on those situated on its maritime lower arc The book is an important contribution to the fields of Asian Studies and International Relations

Southeast Asia Among the World Powers Amry Vandebosch, Richard Butwell, 2014-07-15 First published in 1957 this classic work on the political situation in Southeast Asia at the start of the Vietnam War includes a supplement covering events up to mid 1958 An introductory chapter describes the general political and economic characteristics of this important region lying south of Communist China and east of neutralist India Individual chapters are devoted to Indonesia the Philippines Indochina Thailand Malaya and Burma The concluding chapters analyze the international relations of Southeast Asia and describe American foreign policy in the area

The Making of Southeast Asia Amitav Acharya, 2013-02-22 Developing a framework to study what makes a region Amitav Acharya investigates the origins and evolution of Southeast Asian regionalism and international relations He views the Association of Southeast Asian Nations ASEAN from the bottom up as not only a U S inspired ally in the Cold War struggle against communism but also an organization that reflects indigenous traditions Although Acharya deploys the notion of imagined community to examine the changes especially since the Cold War in the significance of ASEAN dealings for a regional identity he insists that imagination is itself not a neutral but rather a culturally variable concept The regional imagination in Southeast Asia imagines a community of nations different from NAFTA or NATO the OAU or the European Union In this new edition of a book first published as *The Quest for Identity* in 2000 Acharya updates developments in the

region through the first decade of the new century the aftermath of the financial crisis of 1997 security affairs after September 2001 the long term impact of the 2004 tsunami and the substantial changes wrought by the rise of China as a regional and global actor Acharya argues in this important book for the crucial importance of regionalism in a different part of the world

Contemporary Southeast Asia Alice D. Ba, Mark Beeson, 2017-10-25 At the epicenter of the world's most dynamic economic continent Southeast Asia provides a window into some of the most important contemporary global developments in politics and plays a crucial role in determining the wider region's future The 3rd edition of this highly acclaimed text provides a comprehensive analysis of Southeast Asia's remarkable variety of political systems cultures and traditions which are without exception all undergoing a variety of major changes Written by a team of leading experts on Southeast Asia this volume provides an accessible introduction to a region being buffeted by profound internal social transformation and great power confrontation as well as the continuing challenges of economic development and environmental management Comprehensive in its analysis and ambitious in scope this book will be the perfect introduction for students interested in the culture politics economy and society of the nations of Southeast Asia
