Political Power in China Guoguang Wu, 2005 Political power is a great enigma in contemporary China as it operates often behind the closed doors of the Chinese Communist Party CCP In the recent decades of reform it has changed greatly in many ways while retaining its authoritarian nature How do Chinese leaders rule this huge country How does the regime communicate with its bureaucracies and ordinary citizens What happened to politics in recent decades as economic marketisation and social liberalisation formed the major currents of the nation's developments And what are the implications of all these domestic affairs to China's foreign relations and vice versa This volume is an intellectual exercise to explore these questions that have for a long time occupied a central position in academic explorations of Chinese politics The book covers topics such as state enterprise relationship a fundamental indicator of the political economy of Chinese reform central local relations an issue that has perplexed the power arrangements in China for over a thousand years in general and since 1949 in particular relations between popular participation and political reform and the relationship between individual liberty and political democracy a classic question in political theory that frames political debates in contemporary China These collected essays give the reader an insightful peek behind the closed doors of Chinese politics and governance **The Journal of Asian Studies**, 1989 **Daedalus**, 1991 **Post-Mao China** Sujian Guo, 2000-01-30 Guo challenges the predominant view that post Mao China has moved away from communist totalitarianism and that totalitarianism is an outdated paradigm for China studies He seeks to reconstruct a plausible macro model in conceptual and comparative terms for defining regime identity and assessing the nature of regime change Professor Guo then applies the model to the study of regime change in post Mao China and reevaluates post Mao changes across the five major empirical aspects of regime change political ideological economic legal and social and the most critical dimensions of each The findings of Guo's study demonstrate that the practice of post Mao reforms remains rooted in and committed to the hard core of Chinese communist totalitarianism and that the regime has attempted to revive many typical totalitarian practices Most essential or core elements of the idea practice and institution of totalitarianism remain essentially unchanged in all major aspects of the post Mao regime though the post Mao regime does suffer from a certain degree of regime weakening in its adjustments of the action means or protective belt of defending the hard core of the communist totalitarian regime A controversial and essential analysis for scholars researchers and policy makers involved with contemporary China **How Far Across the River?** Nicholas Hope, Dennis Yang, Mu Li, 2003-08-13 Gradual change has been a hallmark of the Chinese reform experience and China's success in its sequential approach makes it unique among the former command economies Since 1979 with the inception of the continuing era of reform the Chinese economy has flourished Growth has averaged nine percent a year and China is now a trillion dollar economy China has become a major trading power and the predominant target among developing countries for foreign direct investment Despite all this China remains poor and the reform process unfinished This book takes its defining theme from Deng Xiaoping's famous metaphor for gradual reform feeling the stones to cross the river How far has

China progressed in fording the river The experts who contributed to this volume tackle many aspects of that question assessing Chinese progress in policy reform priorities for further reform and the research still needed to inform policymakers decisions Workers at War Joshua Harrison Howard,1998
