This festschrift dedicated to Judge Bruno Simma traces the development of international law from regulating bilateral state to state relationships towards strengthening the entire international community by protecting human security the global environment and human rights It provides both theoretical and practical insights into these sometimes conflicting goals their basis in international law and the role played by international institutions charged with upholding these values and interests The work thus examines the mechanism by which international law contributes to the realization not only of individual State interests but the interests of the international community as a whole From this vantage point it looks at the various functions that international law fulfills in the international community from law making and institution building towards adjudication and the securing of human rights Taken together the contributions to this book paints a detailed but nevertheless comprehensive picture of the realization of community interest in contemporary international law As professor and judge Bruno Simma has contributed to all of these tasks providing ground breaking theoretical work serving in the International Law Commission and in the Committee for Economic Social and Cultural Rights and finally as a judge at the International Court of Justice in The Hague The three introductory chapters express this unity of life and work Community Interests Across International Law Eyal Benvenisti, Georg Nolte, 2018-05-10 This book explores the extent to which contemporary international law expects states to take into account the interests of others namely third states or their citizens when they form and implement their policies negotiate agreements and generally conduct their relations with other states It systematically considers the various manifestations of what has been described as community interests in many areas regulated by international law and observes how the law has evolved from a legal system based on more or less specific consent and aimed at promoting particular interests of states to one that is more generally oriented towards collectively protecting common interests and values Through essays by experts in the field this book explores topics such as the sources of international law and the institutional aspects of developing the law and covers a range of areas within the law **ENGEL V.
