Mental Disorders Around the World Kate M. Scott, Peter de Jonge, Dan J. Stein, Ronald C. Kessler, 2018-01-04 This unique book presents original research from the largest cross national survey of the epidemiology of mental disorders ever conducted It provides the latest findings from the WHO World Mental Health Surveys based on interviews of nearly 150 000 individuals in twenty six countries on six continents The book is ordered by specific disorder with individual chapters dedicated to presenting detailed findings on the prevalence onset timing sociodemographic profile comorbidity associated impairment and treatment for eighteen mental disorders There is also discussion of important cross national consistencies in the epidemiology of mental disorders and highlighting of intriguing patterns of cross national variation This is one of the most comprehensive summaries of the epidemiology of mental disorders ever published making this an invaluable resource for researchers clinicians students and policy makers in the fields of mental and public health **Integrated Mental**

Health Services William R. Breakey, 1996 This book deals with the provision of psychiatric services to populations a task which requires an integrated system of service components Generally the target population comprises the residents of a specific geographic area but it may be a special population such as homeless people or people with AIDS Community psychiatry does not deal only with the interaction between a patient and a doctor but with the system of services and interactions that is needed to treat a variety of patients and to provide long term care support and rehabilitation for patients with chronic disorders Modern community psychiatry is pragmatic rather than doctrinaire it measures its success in cost effectiveness rather than by its faithfulness to any particular theoretical model It stresses interdisciplinary teamwork and the involvement of consumers These lessons learned by community psychiatrists working in the public sector over several decades are now being increasingly applied in the private sector as better organized managed systems of care are evolving This book describes the history of public mental health services and the underpinnings of modern community psychiatry in epidemiology mental health services research and administration It then describes the methods and strategies used to provide the range of services that constitute a comprehensive mental health program The authors discuss the public health principles that underlie community approaches and present the methods used within the several components of a comprehensive service system to address the needs of specific populations stressing interdisciplinary teamwork and coordination within an integrated service network The Essential Handbook of Treatment and Prevention of Alcohol

Problems Nick Heather, Tim Stockwell, 2004-02-06 The last three decades have seen an explosion of social psychological and clinical research to identify effective strategies to prevent and treat alcohol related problems This Essential Handbook contains an updated selection of reviews of what works drawn from the critically acclaimed International Handbook of

Alcohol Dependence and Problems Selected specifically for health and other professionals who need to provide effective responses in their work these authoritative science based reviews are a distillation of the more practical elements designed to save time for the busy practitioner

Mental Disorder in Canada John Cairney, David L. Streiner, 2010-06-01 Canada has long been recognized as a leader in the field of psychiatric epidemiology the study of the factors affecting mental health in populations However there has never been a book dedicated to the study of mental disorder at a population level in Canada This collection of essays by leading scholars in the discipline uses data from the country's first national survey of mental disorder the Canadian Community Health Survey of 2005 to fill that gap Mental Disorder in Canada explores the history of psychiatric epidemiology evaluates methodological issues and analyzes the prevalence of several significant mental disorders in the population The collection also includes essays on stigma mental disorder and the criminal justice system and mental health among women children workers and other demographic groups Focusing specifically on Canadian scholarship yet wide reaching in scope Mental Disorder in Canada is an important contribution to the dissemination and advancement of knowledge on psychiatric epidemiology

Psychiatric Research Report , 1967 **Neurobiology of Mental Illness** Dennis S. Charney, Eric J. Nestler, Benjamin S. Bunney, 2001 Advances in molecular and cellular biology and in the basic neurosciences are now bringing the revolution in molecular medicine to the field of psychiatry This is the first comprehensive text to chart that progress In 70 concise chapters it describes the current state of knowledge about the neurobiological mechanisms underlying psychiatric disorders and shows how this information has the potential to dramatically improve treatment and ultimately lead to prevention The

text has been written by world renowned experts in basic neuroscience and the pathophysiology and treatment of psychiatric disorders. It begins with a concise overview of the basic neurosciences followed by an evaluation of the tools that are available for the study of mental disorders in humans. The core of the book is a series of consistently organized sections on affective disorders, anxiety disorders, psychotic disorders, substance abuse disorders, psychiatric disorders in children, and miscellaneous diagnostic entities. Chapters are written in a clear style that is easily accessible to practicing psychiatrists, and yet they are detailed enough to interest researchers and academics. The book is well illustrated and contains selected references that will prove valuable to readers. Both as a textbook and a reference work, *Neurobiology of Mental Illness* represents a unique and valuable resource for students of medicine, neuroscience, and psychology, psychiatric residents, and other trainees in the mental health professions, practicing psychiatrists and psychologists, and other healthcare professionals.
