Krawczynski, 2013-02-20 An exploration of day to day urban life in colonial America The American city was an integral part of the colonial experience Although the five largest cities in colonial America Philadelphia New York Boston Charles Town and Newport held less than ten percent of the American population on the eve of the American Revolution they were particularly significant for a people who resided mostly in rural areas and wilderness These cities and other urban hubs contained and preserved the European traditions habits customs and institutions from which their residents had emerged They were also centers of commerce transportation and communication held seats of colonial government and were conduits for the transfer of Old World cultures With a focus on the five largest cities but also including life in smaller urban centers Krawczynski's nuanced treatment will fill a significant gap on the reference shelves and serve as an essential source for students of American history sociology and culture In depth thematic chapters explore many aspects of urban life in colonial America including working conditions for men women children free blacks and slaves as well as strikes and labor issues the class hierarchy and its purpose in urban society childbirth courtship family and death housing styles and urban diet and the threat of disease and the growth of poverty *Great Times Down South* Giuliano Santangeli Valenzani, 2025 *Great Times Down South* examines advertising materials from 1976 to 1981 including brochures booklets advertisements and radio and TV spots used by state tourism bureaus in Alabama Georgia Mississippi and South Carolina The chosen period known as the Carter era marked southern fashion and economic prosperity in the Sunbelt Analyzing the strategies rhetoric images and themes employed by these tourism bureaus domestically and internationally offers a unique look into the prevailing conception of the South as marketed and perceived externally A noticeable shift in the tourist image of the South occurred in the late 1970s aligning with significant changes in southern culture and society While the 1970s are acknowledged for altering the perception and symbolic role of the South in American culture little research explores how these changes influenced the region's promotional image Prevailing views extend the classic Old South imagery into the 1970s but Giuliano Santangeli Valenzani contends that the roots of the current elusive image of the South can be precisely traced in advertising materials designed to attract visitors during the 1970s **Manufacturers Record**, 1925 **The United States Catalog** Mary Burnham, Carol Hurd, 1928 **Bob Vila's Guide to Historic Homes of the South** Bob Vila, 1993 Describes historic homes in Alabama Florida Georgia Kentucky Louisiana Mississippi Tennessee the Carolinas and the Virginias and includes
