Human Factors in Effective Counter-Terrorism Richard Warnes, 2024-02-29 This book seeks to provide a comparative assessment of the significance of human factors in effective counter terrorism The phrase

human factors is used to describe personal relationships individual capabilities effective leadership technical interface organisational culture and the community engagement necessary to effectively minimise counter and control the threat of terrorism Unlike many works in the field this book is constructed around the input of experienced knowledge from over 170 semi structured interviews of specialist military policing intelligence and security practitioners those actors actually involved in countering terrorism These practitioners come from seven countries the United Kingdom Ireland France Spain Israel Turkey and the United States all of which have suffered over the years from different types of terrorist threat and responded with a mixture of counter terrorist measures Where military practitioners also discussed overseas counter insurgency measures that material has been included since terrorism forms a key aspect of such wider insurgencies The resulting interview data was analysed through a variant of Grounded Theory to identify key emerging themes and issues both positive and negative relevant to human factors in the individual countries and more generically This book incorporates the informed operational experiences and insights of the interviewees while seeking to provide examples of successful counter terrorist measures at the strategic operational and tactical levels This book will be of much interest to students of counter terrorism defence studies and security studies in general

Counterterrorism Frank Shanty, 2012-08-17 This two volume set examines modern nation state legislative diplomatic military and non military attempts to combat terrorism within and outside state borders The articles which comprise this comprehensive reference work address counterterrorism efforts employed by the international community prior to and following the events of September 11 2001 Global terrorism in the 21st century threatens the foundations of secular democracies and directly challenges global security thereby raising new and critical issues that transcend national borders This two volume reference carefully examines threats such as Weapons of Mass Destruction WMD terrorism agro environmental terrorism and energy related terrorism and discusses technologies and strategies such as the use of biometrics data mining information systems psychological profiling and terrorists rehabilitation efforts to mitigate these threats Counterterrorism From the Cold War to the War on Terror provides an easy to read discussion of some of the principal issues involved in combating contemporary terrorism Information is presented in non technical language making it appealing to the general reader as well as a solid reference for undergraduate college students and researchers Following each article are references to other articles of interest and a comprehensive index facilitates access to specific subject material The second volume includes a compilation of significant national and international treaties laws conventions and protocols that have been implemented in an attempt to counter these ongoing threats to domestic and international security

Critical Perspectives on Counter-terrorism Lee Jarvis, Michael Lister, 2014-12-17 This volume examines the rationale effectiveness and consequences of counter terrorism practices from a range of perspectives and cases The book critically interrogates contemporary counter terrorism powers from military campaigns and repression through to the prosecution of terrorist suspects counter terrorism policing counter radicalisation programmes and the proscription of

terrorist organisations Drawing on a range of timely and important case studies from around the world including the UK Sri Lanka Spain Canada Australia and the USA its chapters explore the impacts of counter terrorism on individuals communities and political processes The book focuses on three questions of vital importance to any assessment of counter terrorism First what do counter terrorism strategies seek to achieve Second what are the consequences of different counter terrorism campaigns and how are these measured And third how and why do changes to counter terrorism occur This volume will be of much interest to students of counter terrorism critical terrorism studies criminology security studies and IR in general
