Dictionary Catalog of the Rare Book Division New York Public Library. Rare Book Division, 1971 Reference tool for Rare Books Collection *Information Regimes During the Cold War in East Asia* Jason Morgan, 2020-10-12 Morgan and his contributors develop the concept of the Information Regime as a way to understand the use abuse and control of information in East Asia during the Cold War period During the Cold War war itself was changing as was statecraft Information emerged as the most valuable commodity becoming the key component of societies across the globe This was especially true in East Asia where the military alliances forged in the wake of World War II were put to the most severe of tests These tests came in the form of adversarial relations between the United States and the Soviet Union as well as pressures within their alliances

which eventually caused the People's Republic of China to break with Moscow while Japan for a time during the 1950s and 1960s seemed poised to move away from Washington. More important than military might or economic influence was the creation of information regimes swathes of territory where a paradigm ideology or political arrangement were obtained. Information regimes are not necessarily state centric and many of the contributors to this book focus on examples which were not so. Such a focus allows us to see that the East Asian Cold War was not really cold at all but was the epicentre of an active contentious birth of information as the defining element of human interaction. This book is a valuable resource for historians of East Asia and of developments in information management in the twentieth century. *Author - Title Catalog* University of California, Berkeley. Library, 1963. *American Book Publishing Record Cumulative, 1950-1977* R.R. Bowker Company. Dept. of Bibliography, R.R. Bowker Company. Product Development and Marketing Dept, R.R. Bowker Company. Publications Systems Dept, 1978. *Film and the Holocaust* Aaron Kerner, 2011-05-05. When representing the Holocaust the slightest hint of narrative embellishment strikes contemporary audiences as somehow a violation against those who suffered under the Nazis. This anxiety is at least in part rooted in Theodor Adorno's dictum that To write poetry after Auschwitz is barbaric. And despite the fact that he later reversed his position the conservative opposition to all artistic representations of the Holocaust remains powerful leading to the insistent demand that it be represented as it really was. And yet whether it's the girl in the red dress or a German soldier belting out Bach on a piano during the purge of the ghetto in Schindler's List or the use of tracking shots in the documentaries Shoah and Night and Fog all genres invent or otherwise embellish the narrative to locate meaning in an event that we commonly refer to as unimaginable. This wide ranging book surveys and discusses the ways in which the Holocaust has been represented in cinema covering a deep cross section of both national cinemas and genres. **Catalogue** Dawson's Book Shop, 1948. **Dictionary Catalog of the Research Libraries of the New York Public Library, 1911-1971** New York Public Library.
