The Color of Hunger David L.L. Shields,1995-05-16 The first book ever to examine the links between hunger and race The Color of Hunger probes the contemporary and historical reasons hunger is concentrated among people of color both domestically and globally **The Color of Hunger** David Lyle Shields,1995 Several of the chapters that appear in this book were first presented at a conference on The Color of Hunger on April 25 1992 The book discusses the connections between race and hunger both domestically and internationally presents a personal narrative about hunger and poverty among people of color in the United States probes the use of racial and geographic stereotypes that U S hunger relief organizations use in their fund raising appeals to the general public provides a psychological analysis of the link between racial prejudice and hunger discusses the theory that development assistance programs of the United States are saturated with assumptions of white supremacy analyzes development agencies and the international media presents a historical summary of the linkage between hunger and race in the contemporary world and offers case studies of hunger and race in different national contexts The last chapter urges all to enter the fight against global apartheid The Possessive Investment in Whiteness George Lipsitz,2009-08-21 A widely influential book revised to reveal racial privilege at work in the 21st century White Privilege Paula S. Rothenberg,2004-06-25 Studies of racism often focus on its devastating effects on the victims of prejudice But no discussion of race is complete without exploring the other side the ways in which some people or groups actually benefit deliberately or inadvertently from racial bias White Privilege Second Edition the revision to the ground breaking anthology from Paula Rothenberg continues her efforts from the first edition Two new essays contribute to the discussion of the nature and history of white power The concluding section again challenges readers to explore ideas for using the power and the concept of white privilege to help combat racism in their own lives Brief inexpensive and easily integrated with other texts this interdisciplinary collection of commonsense non rhetorical readings lets educators incorporate discussions of whiteness and white privilege into a variety of disciplines including sociology English composition psychology social work women s studies political science and American studies Racism Albert J. Wheeler,2000 Of all mankind's vices racism is one of the most pervasive and stubborn Success in overcoming racism has been achieved from time to time but victories have been limited thus far because mankind has focused on personal economic gain or power grabs ignoring generosity of the soul This bibliography brings together the literature providing access by subject groupings as well as author and subject indexes Contents Racial Attitudes Racism and Poverty Hate Groups Racial Justice Racism and Politics Race Discrimination Racial Identity Racism Around the World Africa Air University (U.S.).
