Colors Of The Mind Conjectures On Thinking In Literature:

Colors of the Mind Angus Fletcher, 1991 Angus Fletcher is one of our finest theorists of the arts the heir to I A Richards Erich Auerbach Northrop Frye This his grandest book since the groundbreaking *Allegory* of 1964 aims to open another field of study how thought the act the experience of thinking is represented in literature Recognizing that the field of formal philosophy is only one demonstration of the uses of thought Fletcher looks for the ways other languages and their framing forms serve the purpose of certain thinking activities What kinds of thinking accompany the writing of history How does the gnomic sentence manage to represent some point of belief The fresh insights Fletcher achieves at every turn suggest an anatomy of poetic and fictional strategies for representing thought the hazards the complications the sufferings the romance of thought Fletcher's resources are large and his step is sure The reader samples his piercing vision of Milton's Satan the original Thinker leaving the pain of thinking as his legacy for mankind Marvell's mysteriously haunting green thought in a green shade Old Testament and Herodotus Vico and Coleridge Crane Calvino Stevens Fletcher ranges over the heights of literature poetry music and film never losing sight of his central line of inquiry He includes comments on the essential role of unclear vague and even irrational thinking to suggest that ideas often come alive as thoughts only in a process of considerable distress In the end he gives us literature not the content of thought but its form its shape the fugitive colors taken on by the mind as represented in art

Thinking about Other People in Nineteenth-Century British Writing

Adela Pinch, 2010-07-08 Nineteenth century life and literature are full of strange accounts that describe the act of one person thinking about another as an ethically problematic sometimes even a dangerously powerful thing to do In this book Adela Pinch explains why when and under what conditions it is possible or desirable to believe that thinking about another person could affect them She explains why nineteenth century British writers poets novelists philosophers psychologists devotees of the occult were both attracted to and repulsed by radical or substantial notions of purely mental relations between persons and why they moralized about the practice of thinking about other people in interesting ways Working at the intersection of literary studies and philosophy this book both sheds new light on a neglected aspect of Victorian literature and thought and explores the consequences of and the value placed on this strand of thinking about thinking

All in All (More or Less) Walter Jost, 2025-01-07 This book reinvents aspects of the rhetorical tradition as part of a philosophical pluralism oriented to All in Allness Its chapters unfold some of the ethical and intellectual responsibilities philosophy and rhetoric share their commitments toward literature broadly conceived the limited authority of their interpretations and the kinds of judgments they issue in Part One drawing chiefly on Ludwig Wittgenstein and Richard McKeon leverages a central line of argument regarding Rationality in the pragmatism of Robert Brandom Part Two pivots to specific instances of the range of rhetorical

argument found in surprising places and in sophisticated arrangements The book as a whole culminates in Part Three where the author demonstrates how ordinary language criticism fruitfully bears on cultural models film drama novels poetry belonging to American Low Modernism **Literature and Culture in Early Modern London** Lawrence

The Best Poems of the English Language Harold Bloom,2007-08-07 This comprehensive anthology attempts to give the common reader possession of six centuries of great British and American poetry The book features a large introductory essay by Harold Bloom called The Art of Reading Poetry which presents his critical reflections of more than half a century devoted to the reading teaching and writing about the literary achievement he loves most In the case of all major poets in the language this volume offers either the entire range of what is most valuable in their work or vital selections that illuminate each figure s contribution There are also headnotes by Harold Bloom to every poet in the volume as well as to the most important individual poems Much more than any other anthology ever gathered this book provides readers who desire the pleasures of a sublime art with very nearly everything they need in a single volume It also is regarded as his final meditation upon all those who have formed his mind **The Author-cat** Forrest Glen Robinson,2007 Forrest G Robinson argues that a

strong autobiographical impulse infuses the whole of Clemens s fiction He shows how Clemens wrote out of an enduring need to come to terms with his remembered experiences not to memorialize the past but to transform it Clemens s special curse was guilt He was unable to forgive himself for the deaths of those closest to him especially members of his family from his siblings s death in childhood to the deaths of his own children Nor could he reconcile himself to his role in the Civil War his ignominious part in the duel that prompted his departure from Virginia City in 1864 and worst of all his sense of moral complicity in the crimes of slavery Tracing the theme of bad faith in all of Clemens s major writing but with special attention to the late work Robinson sheds new light on a tormented moral life directing attention to what William Dean Howells describes as the depths of a nature whose tragical seriousness broke in the laughter which the unwise took for the whole of him **Artefacts of Legal Inquiry** Maksymilian Del Mar,2020-02-20 Winner of the 2022 Commendation for Excellence by

the International Association for Legal and Social Philosophy IVR What is the value of fictions metaphors figures and scenarios in adjudication This book develops three models to help answer that question inquiry artefacts and imagination Legal language it is argued contains artefacts forms that signal their own artifice and call upon us to do things with them To imagine in turn is to enter a distinctive epistemic frame where we temporarily suspend certain epistemic norms and commitments and participate actively along a spectrum of affective sensory and kinesic involvement The book argues that artefacts and related processes of imagination are valuable insofar as they enable inquiry in adjudication ie the social interactive and collective process of making insight into what values vulnerabilities and interests might be at stake in a case and in similar cases in the future Artefacts of Legal Inquiry is structured in two parts with the first offering an account of the

three models of inquiry artefacts and imagination and the second examining four case studies fictions metaphors figures and scenarios Drawing on a broad range of theoretical traditions including philosophy of imagination and emotion the theory and history of rhetoric and the cognitive humanities this book offers an interdisciplinary defence of the importance of artefactual language and imagination in adjudication

Beer, 1995 Romanticism is notoriously hard to define There are indeed those who believe that a concept which has by now been projected through so many perspectives has become so miasmic in the process that the very term should be dropped from the critical vocabulary This volume demonstrates its continuing importance as a necessary point of focus In Questioning Romanticism John Beer assembles eleven original essays which consider various aspects of contemporary critical practice and Romantic literature While providing a coherent reconstruction of Romantic literary theory the collection offers a diverse and expansive sense of Romanticism's concerns addressing topics such as mimesis phenomenology gender language metaphor and aesthetics The contributors are Martin Aske John Beer Drummond Bone Frederick Burwick A C Goodson Nigel Leask Philip Martin Anne Mellor Lucy Newlyn Tilottama Rajan and Susan Wolfson Questioning Romanticism is a very strong and important collection of essays by scholars of international reputation They are focused on the attempt to rethink the philosophical aesthetic linguistic and social grounds of Romantic theory Rather than seeking to present Romanticism as a unified school of thought the essays in this collection suggest that the Romantic desire to achieve a unified theory of life and literature must be read against an equally strong assertion of questioning irony and uncertainty By drawing on the differing views of a wide range of contemporary Romantic theorists feminism language theory hermeneutics reader response formalism phenomenology aesthetics the collection provides a comprehensive yet diverse focus on the broad ranging concerns that shaped how Romantic writers theorized their writing It is unique in its primary focus on reconstructing the historical complexities the productive uncertainties and the shifting ground of Romantic theory Alan Bewell University of Toronto Where are We Now in Shakespearean Studies?
