**How to See Color and Paint It** Arthur Stern, 2021-12 Learn to see and mix any color with extraordinary precision Many painters don't paint what they see but what they expect to see what they think they see what they remember or what they imagine things are supposed to look like Since the mind stands in the way of the eye the purpose of this revolutionary book is to train you to paint what your eye actually sees Arthur Stern claims that color is key to painting what you see After working with three generations of students he developed a program of 22 painting projects that teach the artist to observe identify mix match and paint the colors of the world with remarkable accuracy Using a painting knife and oil paint you learn to analyze every painting subject as a series of distinct color areas called color spots and place each spot on the canvas as a unique and vivid mixture The fundamental lesson of the book is that if you put the right color spot in the right place you create a realistic image of form space surface texture atmosphere light and shade As you follow the painting projects in this book you'll make the dramatic discovery that everything in nature is filled with luminous color You'll learn to see glowing color in the blackest shadow and the whitest linen You'll learn when a green can appear red how to use paint to replicate metal glass wood paper porcelain and other opaque transparent or textured surfaces Before long you'll be seeing a multitude of colors in a slice of bread apples and oranges and a mass of green leaves You'll learn how to paint quickly enough to capture a live still life a flower that moves and slowly dies as you paint it You'll even practice with a setup outdoors to see how sunlight and skylight affect color How to See Color and Paint It is a must for beginners and a valuable asset for intermediate artists who want to develop a more subtle perception of color A final section contains beautiful paintings of many subjects that have grown out of projects and ideas taught in this book 130 color plates 40 black white illustrations
