Space Shuttle Columbia Ben Evans, 2007-09-23 On February 1st 2003 one of the worst and most public disasters ever witnessed in the human space programme unfolded with horrifying suddenness in the skies above north central Texas The Space Shuttle Columbia the world's first truly reusable manned spacecraft was lost during her return to Earth along with a crew of seven It was an event that after the loss of Space Shuttle Challenger during a launch 17 years before the world had hoped it would never see again This book details each of Columbia's 28 missions in turn as told by scientists and researchers who developed and supported her many payloads by the engineers
