World War II United States. Army. European Theater of Operations. Office of the Theater Historian, 1945 **The European Theater of Operations: Breakout and Pursuit** Martin Blumenson, Center of Military History United States Army, Center of Military History United States, 2014-12-17 Operations of the First U S Army from 1 July through 10 September 1944 and of the Third U S Army from 1 August through 31 August 1944 including the battle of the hedgerows the Mortain counterattack the reduction of Brest and the liberation of Paris The Era of World War II Louise A. Arnold-Friend, 1979 **European Theater of Operations** Jeffrey J. Clarke, Robert R Smith, 1993-04 CMH Pub 7 10 United States Army in World War 2 1st printing Provides a history of combat operations by the Sixth Army Group from its landing in France to its crossing of the Rhine River Covers the period from August 1944 to March 1945 This work is the final volume of the United States Army's series of operational histories treating the activities of its combat forces during the Second World War The Medical Department Graham Cosmas, Albert Cowdrey, 2015-07-08 Although readily admitting the importance of combat service support forces military students and historians alike tend to concentrate on combat and combat support units when studying operations giving only passing attention to the vital work of the logisticians signalmen transport troops and the rest This is regrettable for the operations of combat service support units especially in a global conflict like World War II with its vast distances and varied terrains have much to teach us about modern warfare lessons that remain of surpassing importance to our profession The Medical Department Medical Service in the European Theater of Operations supports the proposition that the experience of medical personnel in war directly stimulates advances in medical science More importantly it demonstrates that the organization of health care in the combat zones including evacuation of the wounded control of disease among troops and civilian populations and care of prisoners of war contributed directly to the Allied victory The exploits of the doctors corpsmen and medical support units provide a model for the planning and organization of medical support in today's Army This volume continues a subseries begun in 1966 with the study of medical support of the Army in the Mediterranean Theater The Center of Military History will soon complete this project with the publication of a similar study of the very different challenges faced by the Medical Department in the Pacific *The GI Offensive in Europe* Peter R. Mansoor, 1999 The German Wehrmacht was one of the most capable fighting forces the world has ever known but in the end it was no match for the Allies Some historians contend that the Allies achieved victory through brute force and material superiority But as Peter Mansoor argues all of the material produced by US industry was useless without trained soldiers to operate it a coherent doctrine for its use and leaders who could effectively command the formations into which it was organized **The Ardennes, 1944-1945** Christer Bergström, 2014-12-19 A comprehensive photo filled account of the six week long Battle of the Bulge when panzers slipped through the forest and took the Allies by surprise In December 1944 just as World War II appeared to be winding down Hitler shocked the world with a powerful German counteroffensive that cracked the center of the American front The attack came through the Ardennes the hilly and forested area in eastern

Belgium and Luxembourg that the Allies had considered a quiet sector. Instead for the second time in the war the Germans used it as a stealthy avenue of approach for their panzers. Much of US First Army was overrun and thousands of prisoners were taken as the Germans forged a fifty mile bulge into the Allied front. But in one small town Bastogne American paratroopers together with remnants of tank units offered dogged resistance. Meanwhile the rest of Eisenhower's broad front strategy came to a halt as Patton from the south and Hodges from the north converged on the enemy incursion. Yet it would take an epic six week long winter battle the bloodiest in the history of the US Army before the Germans were finally pushed back. Christer Bergström has interviewed veterans gone through huge amounts of archive material and performed on the spot research in the area. The result is a large amount of previously unpublished material and new findings including reevaluations of tank and personnel casualties and the most accurate picture yet of what really transpired from the perspectives of both sides. With nearly four hundred photos numerous maps and thirty two superb color profiles of combat vehicles and aircraft it provides perhaps the most comprehensive look at the battle yet published. **Combat** Don Congdon, 1958 *Hell in Hürtgen Forest* Robert S. Rush, 2001. Some of the most brutally intense infantry combat in World War II occurred within Germany's Hurtgen Forest. Focusing on the bitterly fought battle between the American 22d Infantry Regiment and elements of the German LXXIV Korps around Grosshau, Rush chronicles small unit combat at its most extreme and shows why despite enormous losses the Americans persevered in the Hurtgenwald meat grinder. On 16 November 1944 the 22d Infantry entered the Hurtgen Forest as part of the U.S. Army's drive to cross the Roer River. During the next eighteen days the 22d suffered more than 2,800 casualties or about 86 percent of its normal strength of about 3,250 officers and men. After three days of fighting the regiment had lost all three battalion commanders. After seven days rifle company strengths stood at 50 percent and by battle's end each had suffered nearly 140 percent casualties. Despite these horrendous losses the 22d Regiment survived and fought on due in part to army personnel policies that ensured that unit strengths remained high even during extreme combat. Previously wounded soldiers returned to their units and new replacements green to battle arrived to follow the remaining battle hardened cadre. The German units in the Hurtgenwald suffered the same horrendous attrition with one telling difference. German replacement policy detracted from rather than enhanced German combat effectiveness. Organizations had high paper strength but low manpower and commanders consolidated decimated units time after time until these ever dwindling bands of soldiers disappeared forever killed, wounded, captured or surrendered. The performance of American and German forces during this harrowing eighteen days of combat was largely a product of their respective backgrounds, training and organization. Rush's work underscores both the horrors of combat and the resiliency of American organizations. While honoring *Breakout and Pursuit* Martin Blumenson, 1961 **Breakout and Pursuit** Martin Blumenson, 1993 Closing with the Enemy Michael Dale Doubler, 1994. This study picks up where D Day leaves off. From Normandy through the breakout in France to the German Army's last gasp in the Battle of the Bulge, Michael Doubler deals

with the deadly business of war closing with the enemy fighting and winning battles taking and holding territory His study provides a reassessment of how American GIs accomplished these dangerous and costly tasks
