Handbook of Research on Current Trends in Cybersecurity and Educational Technology Jimenez, Remberto, O'Neill, Veronica E., 2023-02-17 There has been an increased use of technology in educational settings since the start of the COVID 19 pandemic. Despite the benefits of including such technologies to support education, there is still the need for vigilance to counter the inherent risk that comes with the use of such technologies as the protection of students and their information is paramount to the effective deployment of any technology in education. The Handbook of Research on Current Trends in Cybersecurity and Educational Technology explores the full spectrum of cybersecurity and educational technology today and brings awareness to the recent developments and use cases for emergent educational technology. Covering key topics such as artificial intelligence, gamification, robotics, and online learning, this premier reference source is ideal for computer scientists, industry professionals, policymakers, administrators, researchers, academicians, scholars, practitioners, instructors, and students.

Digital First Surbhi Dahiya, 2023-06-14 India has the second largest number of Internet users in the world today. In response to this twenty-first century wave of rapid Internet growth and usage, journalism in India is now mainly digital. Challenging the existing forms of print legacies and old media networks are a number of digital media startups that have fuelled and radically altered consumption of information by providing different and innovative forms of content strategies and distribution strategies. These include profit-based content startups, aggregation-based startups, and non-profit startups. Digital First uses a longitudinal case study approach to analyze key digital media startups in the Indian journalism industry today, notably The Print, The Wire, The Citizen News, Laundry Scoop, Whoop PARI, InShorts, Youth ki Awaaz, Scroll in Khabar, Lahariya, AltNews, The Logical Indian, among others. These organizations represent different strategies, approaches, and ideologies. The book discusses ways in which these startups began and have grown their organizational structures and policies and their varied business models.

Russian Nazi Troll Bots! Eric W. Saeger, 2018-08-24 It's beyond dispute that trolls and automated bots helped Donald Trump win the White House in 2016 Some of the troll operations involved were based in Russia but domestic interests also participated in the invasion In fact trolls of all types from all corners of the internet came together in a perfect storm of propaganda disinformation and political dissent The confusion wrought by the multi pronged troll invasion still affects our online spaces today leaving many questions unanswered Who are the trolls What do they want How do they operate Why couldn't our intelligence agencies put a stop to Russian and right wing trolling Can trolling be stopped And what's with all the freakin Nazis One thing is certain the troll invasions wouldn't have succeeded if America hadn't been divided on many pressing issues Deep cultural woes such as racism our New Generation Gap and the slow destruction of the middle class were part of the toxic environment that allowed trolls to flourish This book the first from software expert award winning internet troll and long time underground culture

fixture Eric Saeger examines all these issues with an impartial eye The limitations and realities of current technology are explained in clear simple language revealing the tactics of everyday trolls and describing how future technology promises to make the internet a safe livable place for everyone Most important of all along the way you ll see the humor in our dire but salvageable situation Once we understand the invaders we ll no longer fear RUSSIAN NAZI TROLL BOTS
