To grow your ecommerce business you need to gain more clients
And to achieve it you have to provide high quality customer experience
Sounds logical
But the more visitors on your website the more questions your support agents have to handle
And here is the challenge you need to face to successfully grow your store
How to serve more clients answer more questions and maintain the high quality of support at the same time
There are two ways
The first is to constantly hire new support agents
It probably will work but the cost you'll have to take for constantly recruiting and training new employees will be huge
The second way is connected to technology that took the ecommerce industry and not only this one by a storm and will stay with us for a long time
If not forever
