AI in the Classroom Ross Smith, Mayte Cubino, Emily McKeon, 2025-10-16 **DESCRIPTION:** For thousands of years, education has been shaped by technology, from clay tablets and hornbooks to the printing press and now to digital learning platforms and remote education systems. As artificial intelligence becomes more embedded in our daily lives, its role in education continues to explode. AI tools offer personalized instruction, streamlined administrative tasks, and enhanced student engagement, creating a learning environment tailored to individual needs. This book offers a guide to AI understanding and implementation in the classroom and how it makes personalized learning practical, scalable, and achievable for all. Readers will understand how the advances in technology over time have led to improvements in education and how AI can enhance a personalized learning experience. The authors go in depth to find the latest research to explore the implementation of AI strategies and technology in the classroom, along with the critical and increasingly important focus on security, privacy, and ethical concerns. By the end of this book, the reader will have a robust understanding of AI and how it can help implement, facilitate, and augment personalized instruction strategies.

Acquiring Pragmatic and Intercultural Communicative Competences in the Digital Era Sofia Di Sarno-García, 2025-12-11. This book explores second language pragmatic development and intercultural communicative competence acquisition through telecollaboration. It shows how telecollaborative environments are appropriate for the development of these two competences and how they are inextricably interrelated. *Acquiring Pragmatic and Intercultural Communicative Competences in the Digital Era* draws a comparison between the effects of telecollaboration projects and traditional face to face instruction within the foreign language classroom for developing pragmatic competence and intercultural communicative competence. Analysis is based on research into how undergraduate Spanish learners of English engage in telecollaboration projects with first language or highly proficient speakers of English and in traditional face to face instruction with their Spanish partners. Using synchronous Zoom and asynchronous MeWe digital tools, the book explores the beneficial role of telecollaboration projects in second and foreign language settings, offering researchers and teachers an example of how to implement this kind of project in their language teaching practices.
