A Handbook for Retaining Early Career Teachers Anna Elizabeth Du Plessis, 2023-10-31 This book addresses the global concern of teacher attrition rates, particularly those who walk away from the profession within the first five years. The author offers new knowledge about the factors that influence beginning teachers' career decisions through an in-depth examination of their lived experiences. Using a unique lens that explores the complexities of a beginning teacher's classroom through its many attendant axiological, structural, interpersonal, and practical contexts, the book presents strategies that address the deep matters of retention in the educational arena. Using its insights, school leaders are enabled to shift the balance of school policy understanding towards beginning teachers' acute needs for support. Based on an empirical study of more than 2,000 beginning teachers and school leaders, this book reveals perceptions, truths, and lived experiences in order to guide the development of effective retention strategies and policies which are fundamental to stabilising the teacher workforce.

Teacher Education in the 21st Century Reginald Monyai, 2019-05-02 A learner-centred curriculum provides space for the learner to be actively involved in knowledge production and learning. Such can only happen if the learner's confidence is boosted by a feeling of control and ability to manage his or her progress towards acquiring a qualification. The twenty-first century teacher must create an environment that not only supports the Four Pillars of Learning but also leads to learners being allowed a voice to ask pertinent questions. The teacher should be able to guide the student to full physical and mental maturity and should help to develop critical thinking, and the students should be encouraged to practice the truth and

have self respect and respect for other people This can happen if the learner is afforded the opportunity to self accept If the learners fail to do so they are likely to have lack of confidence which will lead to lack of independence
