**Trust** Sonja Zmerli, Tom W.G. van der Meer, 2017-01-27 Political trust in government parliament or political parties has taken centre stage in political science for more than half a century reflecting ongoing concerns with the legitimacy and functioning of representative democracy To provide scholars students and policy makers with a tool to navigate through the complexity of causes and consequences of political trust this Handbook offers an excellent overview of the conceptual theoretical methodological and empirical state of the art complemented by accounts of regional particularities and authored by international experts in this field *Comparative Politics*, 1975 **Joining Political Organisations** Laura

Morales, 2009-04-01 From political parties to environmental organisations citizens join a host of associations in order to influence policymaking and political agendas Yet why in some western democracies do citizens join political organisations much more than in others Drawing on a large number of crossnational surveys and data sets Morales shows that huge crossnational variations in political membership are not so much related to social or attitudinal differences between these countries citizens but are explained to a great extent by the structure of the political system of each nation Cross-Cultural

**Participation** Laura Morales Diez de Ulzurrun, 2004 Esta tesis mantiene que no podemos entender completamente el asociacionismo pol tico de los ciudadanos a menos que fijemos nuestra mirada m s all de las caracter sticas individuales es decir a menos que intentemos comprender qu efecto tiene sobre su comportamiento pol tico el contexto pol tico y social en el que los ciudadanos act an Los recursos y las caracter sticas socioecon micas proporcionan oportunidades para unirse a organizaciones pol ticas Las actitudes y las orientaciones proveen o por el contrario reducen la motivaci n para unirse a un grupo con objetivos pol ticos Sin embargo estos rasgos individuales no son necesariamente factores de desigualdad en todas las sociedades ni tienen siempre las mismas consecuencias El contexto social y pol tico en el que los ciudadanos toman decisiones sobre su participaci n interact a de manera importante con los rasgos individuales para activar o desactivar su impacto pol tico Adem s el contexto social y pol tico que rodea a los ciudadanos tiene tambi n un impacto independiente sobre su comportamiento pol tico Las instituciones pol ticas y las pautas de movilizaci n pol tica condicionan de manera crucial el asociacionismo pol tico Estos dos conjuntos de factores instituciones y movilizaci n estructuran las oportunidades de participaci n que en realidad tienen los ciudadanos De hecho algunos sistemas democr ticos han desarrollado instituciones pol ticas que facilitan la pertenencia a grupos pol ticos As mientras que en algunos pa ses occidentales los ciudadanos son movilizadados con mucha frecuencia a trav s de asociaciones pol ticas en otros lo son en mucha menor medida Esta tesis es por lo tanto un intento de incorporar de una manera sistem tica la pol tica y las instituciones en el an lisis del comportamiento pol tico A lo largo de la misma se demuestra que las enormes diferencias entre los pa ses occidentales en t rminos de la propensi n de sus respectivos ciudadanos a organizarse pol ticamente no pueden explicarse s lo por las distintas caracter sticas socioecon micas de los individuos Sin duda estos aspectos tambi n contribuyen a que sean menos participativos pero no nos ayudan gran cosa a explicar las variaciones que encontramos entre sociedades occidentales Los resultados de esta investigaci n ponen de manifiesto la enorme importancia del contexto sociopol tico para explicar por qu los ciudadanos de algunas democracias occidentales participan en pol tica a trav s de organizaciones y por qu no lo hacen los de otras sociedades similares Determinadas estructuras de oportunidades pol ticas favorecen la participaci n de los ciudadanos de manera muy importante As sistemas pol ticos m s abiertos a la influencia de las organizaciones pol ticas gracias a la existencia de arreglos corporativistas de intermediaci n de intereses y al mayor pluralismo y fragmentaci n de la representaci n parlamentaria contribuyen a que los ciudadanos encuentren mayores incentivos para participar en los asuntos p blicos Del mismo modo el grado en que las propias organizaciones pol ticas act an como agentes efectivos de movilizaci n pol tica influye en el comportamiento participativo de los ciudadanos All donde las organizaciones pol ticas tienen una red organizativa y de infraestructuras m s densas los ciudadanos est n m s expuestos a los est mulos de reclutamiento pol tico y por tanto participan m s Adem s el contexto pol tico no s lo estructura las oportunidades de participaci n de los ciudadanos sino que tambi n interact a con las caracter sticas de los propios ciudadanos contribuyendo as a aumentar o disminuir las

desigualdades participativas de los mismos Las estructuras políticas más abiertas y accesibles disminuyen las barreras y los costes a la participación de tal manera que los individuos con menores recursos socioeconómicos por ejemplo la educación no se encuentran tan desfavorecidos en su capacidad de influir en el proceso de toma de decisiones Por el contrario las estructuras políticas más cerradas exacerban el efecto de las desigualdades sociales y las transforman en desigualdades políticas De esta manera el contexto político tiene un doble efecto sobre el asociacionismo político en las democracias occidentales Por un lado condiciona cuánta gente participa en los asuntos públicos a través de organizaciones políticas y por otro incide en quiénes son los que participan Los sistemas políticos más abiertos extienden e igualan la participación organizada de los ciudadanos los sistemas políticos más cerrados reducen la participación y la hacen más desigual socialmente
