The Compassionate Universe Eknath Easwaran, 2022-01-04 What is the connection between our small daily individual choices and the condition of the earth's environment The Compassionate Universe looks at our choices through the perspective of Mahatma Gandhi's seven social sins such as Science Without Humanity and Politics Without Principles The Compassionate Universe: The Power of the Individual to Heal the Environment Eknath Easwaran, 2022-01-04 A practical and inspiring approach to tackling our environmental crisis from a master spiritual teacher We can heal our earth by choosing a simpler more fulfilling lifestyle as trustees of a compassionate universe Eknath Easwaran presents a penetrating analysis of the spiritual roots of our current predicament and offers a realistic and hopeful way forward Each of us has a role to play in making wise choices and each of us can genuinely make a difference Drawing inspiration and insight from Mahatma Gandhi Saint Francis and his own experience of living in the East and the West Easwaran shows the connections between individual thoughts and actions that move beyond consumerism to the unity of life Mahatma Gandhi formulated a series of diagnoses of our seemingly perpetual state of crisis which he called the seven social sins knowledge without character science without humanity wealth without work commerce without morality politics without principles pleasure without conscience and worship without self sacrifice Easwaran explores each of these diagnoses in turn and presents an alternative hypothesis of who we are and how we fit into the universe This is ecology as a great adventure filled with the challenges and rewards of inner growth Easwaran tells us that once we open our eyes to cooperation artistry thrift and compassion we begin to see thousands of little things we can do to help restore the environment and restore dignity and deeper fulfillment to our own lives Eknath Easwaran is renowned as a teacher of meditation and for his translations of the Indian scriptures His writings express timeless spiritual insights and are illustrated by stories from East and West His books reflect two cultures India where he grew up in a self supporting agrarian village and the United States where he taught and lectured for over thirty years His early experiences of living in harmony with nature his firsthand acquaintance with Gandhi's India and his long familiarity with an American audience have resulted in this book a deeply thoughtful examination of our present situation and a blueprint for living as trustees of a compassionate universe in a world that we would want our children and grandchildren to inherit Leadership Today Joan Marques, Satinder Dhiman, 2016-08-24 This textbook provides a clear understanding of leadership needs in today's business world explained within the scope of hard and soft leadership skills It captures qualities and skills such as spirituality empathy moral behavior mindfulness empathy problem solving self confidence ambition knowledge global understanding and information technology This text explains and provides guidelines for the implementation of each skill and includes examples from contemporary and historical leaders inviting the reader to consider each quality and engage in self reflection This book deviates from excessive theoretical descriptions presenting a timely hands on approach to leadership Featuring contributions from academics and professionals from around the world this text

**Stepping Lightly** Mark A. Burch, 2012-10-24 While the voluntary simplicity movement has grown by leaps and bounds in recent years it is still often stereotyped as being mainly concerned with a thrifty lifestyle But simple living has much deeper implications than just cleaning closets or selling off a second car In *Stepping Lightly* Mark Burch considers the deeper rewards of voluntary simplicity for individuals and how the practice of simple living can be an essential part of the solution to our social and environmental problems Thoughtful and eloquent this book will appeal to a wide range of readers interested in committing themselves to stepping lightly into a more sustainable future

*Gandhi in His Time and Ours* David Hardiman, 2003 Gandhi was the creator of a radical style of politics that has proved effective in fighting insidious social divisions within India and elsewhere in the world How did this new form of politics come about David Hardiman shows that it was based on a larger vision of an alternative society one that emphasized mutual respect resistance to exploitation nonviolence and ecological harmony Politics was just one of the many directions in which Gandhi sought to activate this peculiarly personal vision and its practice involved experiments in relation to his opponents From representatives of the British Raj to Indian advocates of violent resistance from right wing religious leaders to upholders of caste privilege Gandhi confronted entrenched groups and their even more entrenched ideologies with a deceptively simple ethic of resistance Hardiman examines Gandhi s ways of conducting his conflicts with all these groups

as well as with his critics on the left and representatives of the Dalits He also explores another key issue in Gandhi's life and legacy his ideas about and attitudes toward women Despite inconsistencies and limitations and failures in his personal life Gandhi has become a beacon for posterity The uncompromising honesty of his politics and moral activism has inspired such figures as Jayaprakash Narayan Medha Patkar Martin Luther King Jr Nelson Mandela and Petra Kelly and influenced a series of new social movements by environmentalists antiwar campaigners feminists and human rights activists among others dedicated to the principle of a more just world

**Awakening Earth** Duane Elgin,1993 Just as there are relatively distinct stages that characterize the development of an individual from infancy to early adulthood so too are there discernible stages in the development of our species as we move toward a planetary scale civilization Awakening Earth brings together views from science and spirituality East and West the practical and the visionary to present a compelling new picture of human evolution Based upon twenty years of research this book explores the human journey from the initial awakening of hunter gatherers roughly 35 000 years ago through the agrarian era and Industrial Revolution and then goes on to describe three additional stages of development essential for realizing our initial maturity as a global species civilization A disoriented world civilization faced with dwindling resources mounting pollution and exploding population is a recipe for ecological collapse and social anarchy It is imperative that the human family begin to make rapid and profound changes in how we live together on the Earth To accomplish this we must now ask ourselves fundamental questions Who are we What are we doing here Where are we going as a species Awakening Earth provides a catalyst for this conversation with its integrative vision and inspiring map of the journey toward a sustainable compassionate and creative future While not predicting a sudden new age of social enlightenment Awakening Earth does present the promising view that humanity is roughly halfway through seven major transformations in culture and consciousness required to build a planetary civilization that can endure into the deep future
