**Audels Engineers and Mechanics Guide**, 1921 *MotorBoating*, 1969-10 **Boater's Book of Nautical Terms** David S. Yetman, 2000-09 After years of writing award winning articles for major boating magazines David S. Yetman had compiled over one thousand nautical terms and phrases every boater should know The next logical step writing an excellent reference book containing these terms and phrases This book contains the phonic pronunciation for the appropriate entries and many illustrations to further explain the text During the past several hundred years the boating community has developed a language all its own This book is not intended to list every obscure term but it will give the reader a broad cross section of those which arise in the course of boating Most people use at least a few of these terms or phrases in everyday conversation without realizing their nautical nature The first entry in the book is a prime example we are taken aback by an unmanageable condition Sometimes we take a sounding to see how much leeway we have and grant a wide berth to those who may be off course Reading a boating related magazine or having a conversation on the dock will be

much less puzzling after reviewing the entries in this book Regardless of your familiarity with boats you will find this to be an excellent reference tool to add to your boating library Enjoy the knowledge Illustrated *Gas Power* ,1911 Popular Mechanics Magazine ,1924 **Books Added** Chicago Public Library,1916 **Yachting** ,1914 The A.B.C. of Aviation Victor Wilfred Page,1918 *The American Marine Engineer ...* ,1922 **Power Plant Engineering** ,1928 The International Operating Engineer ,1928 **The Motor Boat** Francis P.
