## **Actionable Hybrid Work Schedule Ideas For Men:**

**My City Links: October 2024 Issue** My City Links, 2024-10-10 Celebrated as the triumph of good over evil Dussehra is again set to enthral everyone with its accompanying pomp and splendour. In our Cover Story we take a close look at celebrations at the Shakti Pithas revered in Odia tradition and try to get a better understanding of the divine traditions that come alive during Dussehra and Durga Puja. Food has a close association with festivals across the country and Durga Puja is no exception. Our Food and Wine section captures the essence of the festive season by zeroing in on recipes of some Odia delicacies that come with a slice of culture as well as tradition. From fish preparations to traditional pancakes, Durga Puja is known for these special offerings to the Goddess. In City Sports we look at 10 athletes from the state who are all set to participate in the Indian Open U23 Athletics meet. The section also features the junior women's and sub-junior men's hockey championships where the teams from Sundargarh stamped their authority by winning both the titles. Our City Fashion section takes a look at a trend that is fast becoming the norm for much of today's younger generation: thrift shopping. Once looked down upon, second-hand clothes now seem to have lost the stigma they were long associated with. Our special feature brings you the low-down on thrift shopping as we explore how the trend is being seen as a welcome shift towards eco-friendly and sustainable fashion. We also speak to some youngsters to understand what draws them to thrift shopping. Odisha has a rich heritage of folk and tribal songs, and singer Susmita Das has been on a mission to promote them on the global stage. We catch up with her in Screen Shots as she talks about what inspired her to embark on this praiseworthy journey and her plans for the future. The festive season is here, and so are some much anticipated Bollywood releases. Screen Shots takes a quick look at the latest Odia films lined up for the big screen, ranging from thrillers and a social drama to a moving tribute to a legend of music. If you were impressed by the rich tapestry of emotions that Pixar's 2015 release *Inside Out* wove around its central character, there is something you can look forward to. Its sequel *Inside Out 2* is now streaming on OTT platforms, and City Flix brings you a review of what to expect.

**Building Tomorrow's Biomedical Workforce: Evaluation of How Evidence-Based Training Programs Align Skill Development and Career Awareness with a Broad Array of Professions** Adriana Bankston, Rebekah L. Layton, Audra Van Wart, 2025-08-27 Building the future STEM workforce requires robust federal investments to support the next generation of innovators as well as systemic changes to enable graduate and postdoctoral researchers to transition with confidence into the biomedical workforce. This effort involves the transformation of the biomedical research enterprise and training environment at all levels but especially at the predoctoral and postdoctoral levels. Innovative initiatives in education and training as well as career and professional development of biomedical trainees are necessary to build upon the robust biomedical workforce of today and create and sustain a diverse, innovative, and highly trained biomedical workforce of tomorrow. An important aspect of supporting the biomedical workforce relates to changes within training and the research enterprise with opportunities for reimagining what STEM education

should look like at different levels including providing agency for junior scientists in the field The future of the field should focus on inclusivity supporting trainees from different backgrounds and with diverse perspectives including but not limited to intersectional identities in race ethnicity gender sexual orientation first generation status and international talent in STEM This requires critical policy changes in order to support the transition of biomedical research professionals into the labor market

*Handbook of Collaborative Management Research* A. B. Shani, Susan Albers Mohrman, William A. Pasmore, Bengt Stymne, Niclas Adler, 2007-08-23 This handbook provides the latest thinking methodologies and cases in the rapidly growing area of collaborative management research What makes collaborative management research different is its emphasis on creating a close partnership between scholars and practitioners in the search for knowledge concerning organizations and complex systems In the ideal situation scholars and their managerial partners would work together to define the research focus develop the methods to be used for data collection participate equally in the analysis of data and work together in the application and dissemination of knowledge The handbook contains insightful reflections on the state of the art as well as detailed descriptions of the collaborative efforts of an international group of leading edge academics and their practitioner counterparts The applications of collaborative research methods included in this volume include those aimed at individual development organizational development regional development efforts and economic policy The insights from the cases suggest that collaborative management research has been a highly effective means of getting at issues that other research methods and intervention techniques have failed to address The rationale for conducting this highly engaging type of research is explored in the first section of the handbook followed by sections that offer new methodologies descriptive cases views from those directly involved and issues and enablers about the use of this approach in advancing knowledge and practice The handbook does appeal to scholarly practitioners as well as practical scholars
