Presenters discussed their research on the impact of utilizing virtual worlds for educational purposes Presenters also discussed the influence virtual worlds have on concepts such as identity learning and interaction *Virtual Worlds and E-Commerce: Technologies and Applications for Building Customer Relationships* Ciaramitaro, Barbara, 2010-08-31 Virtual Worlds and E Commerce Technologies and Applications for Building Customer Relationships presents various opinions judgments and ideas on how the use of digitally created worlds is changing the face of e commerce and extending the use of internet technologies to create a more immersive experience for customers Containing current research on various aspects of the use of virtual worlds this book includes a discussion of the elements of virtual worlds the evolution of e commerce to virtual commerce v commerce the convergence of online games and virtual worlds current examples of virtual worlds in use by various businesses the military and educational institutions the economics of virtual worlds discussions on legal security and technological issues facing virtual worlds a review of some human factor issues in virtual worlds and the future of virtual worlds and e commerce *Move* Patty Azzarello, 2017-01-31 Move past the obstacles and implement your new strategy Move is your guide to mobilizing your whole organization to take your business forward Whatever your needed transformation may be a new initiative a new market a new product your fresh strategy is up against a powerful foe an organization s tendency to stay very busy and completely engaged what it s already doing This book shows you how to cut through resistance and get your team engaged and proactively doing the new thing Author Patty Azzarello draws on over twenty five years of international business management experience to identify the chronic challenges that keep organizations from decisively executing strategy and to give you a practical game plan for breaking through Leaders tend to assume that stalls in execution are inevitable unchanging parts of the workplace but things can change At the heart of every execution problem is the fact that there simply are not enough people doing what the business needs This guide shows you how to get your entire organization on board remove the fear excuses and hurdles and uphold the new pursuit against distractions and dissent No transformation can succeed without suitable engagement from the whole organization but building engagement can be difficult uncomfortable and tentative This book shows you how to get it done Get your organization to embrace and personally commit to the new work Remove obstacles and passive aggressive attacks that block progress Defend new strategic initiatives against short term pressures to revert to business as usual Sustain momentum and the desire to move forward Make sure no one is ever asking Are we still doing this Inertia isn t just a law of the universe it s a law in the workplace that can be a major obstacle to making things happen The great thing about inertia is that it cuts two ways a body at rest remains at rest but a body in motion remains in motion People love to finish things Move shows you how to make successful execution the new norm starting today Putting Our Differences to Work Debbe Kennedy, 2008-06-18 Putting our differences to work means creating an environment where people naturally unique and different diverse by nature and experience can work more effectively in ways that drive new levels of creativity innovation problem solving leadership and

performance in the marketplaces workplaces and communities of the world Debbi Kennedy shows how to make all the dimensions of difference such as thinking styles perspectives experiences work habits and management styles as well as more traditional diversity considerations like gender race ethnicity physical abilities sexual orientation and age tremendous sources of strength Kennedy draws on the latest research and a wealth of real world examples to offer compelling evidence showing exactly how putting our differences to work accelerates innovation and contribution She identifies five distinctive qualities of leadership that leaders must add to their portfolio of skills to make differences an engine of success And she provides a detailed six stage process for making the most of differences in the workforce combining first person best practice stories and strategic with tactical ideas to help you put each step into action Kennedy has written both a personal and a practical guide that changes the prevailing rules of how to think behave and operate as a leader connecting four diverse elements of business and society that have traditionally been siloed innovation leadership diversity and inclusion She and futurist Joel Barker also look at how new discoveries including Web 2.0 technologies can draw us closer together in previously unimagined ways

Handbook of STEM Faculty Development Sandra M. Linder, Cindy M. Lee, Shannon K. Stefl, Karen A. High, 2022-12-01 Faculty in the science technology engineering and mathematics STEM disciplines face intensifying pressures in the 21st century including multiple roles as educator researcher and entrepreneur In addition to continuously increasing teaching and service expectations faculty are engaged in substantive research that requires securing external funding mentoring other faculty and graduate students and disseminating this work in a broad range of scholarly outlets Societal needs of their expertise include discovery innovation and workforce development It is critical to provide STEM faculty with the professional development to support their complex roles and to base this development on evidence derived from research This edited handbook provides STEM stakeholders with an opportunity to share studies and or experiences that explore STEM faculty development (FD) in higher education settings More specifically we include work that examines faculty development planning techniques models experiences and outcomes focused on supporting the teaching research service and leadership responsibilities of STEM faculty The Handbook is suited for researchers and practitioners in STEM STEM Education Mathematics Science Technology and Engineering disciplines It is also suited towards faculty developers higher education administrators funding agencies industry leaders and the STEM community at large This handbook is organized around three constructs INPUTS MECHANISMS and OUTPUTS The STEM

faculty development inputs construct focuses on topics related to the characteristics of faculty members and institutions that serve as barriers or supports to the adoption and implementation of holistic STEM faculty development programs Questions addressed in the handbook around this topic include What barriers supports exist for STEM faculty How are these barriers supports being addressed through STEM FD How do contexts e g economic political historical influence faculty administrative needs related to STEM FD How do demographics e g gender ethnicity age family background influence faculty administrative needs related to STEM FD The STEM faculty development mechanisms construct focuses on topics related to the actual implementation of STEM faculty development and we consider the potential models or structures of STEM faculty development that are currently in place or conceptualized in theory Questions addressed in the handbook around this topic include What are the processes for developing models of STEM FD What are effective models of STEM FD How is effectiveness determined What roles do stakeholders e g faculty administration consultants play within STEM FD mechanisms The STEM faculty development outputs construct focuses on how to best understand the influence of STEM faculty development on outcomes such as productivity teacher quality and identity in relation to faculty development Questions addressed in the handbook around this topic include How has STEM FD influenced higher education practices and settings What are appropriate output measures and how are they used in practice What collaborations emerge from STEM FD How does STEM FD affect other STEM stakeholders e g students administration business community The aim for this handbook was to examine the multifaceted demands of faculty roles and together with members of the STEM education community envision pathways through which universities and individuals may support STEM colleagues regardless of their experience or rank to enjoy long and satisfying careers Our hope is for these chapters to aid readers in deep reflection on challenges faculty face to contemplate adaptations of models presented and to draw inspiration for creating or engaging in new professional development programs Chapters across this handbook highlight a variety of institutional contexts from 2 year technical colleges to teaching focused institutions in addition to research centric settings Some chapters focus primarily on teaching and learning practices and offer models for improving STEM instruction Others focus on barriers that emerge for STEM faculty when trying to engage in development experiences There are chapters that examine tenure structures in relation to faculty development and how STEM FD efforts could support research endeavors Mentorship and leadership models are also addressed along with a focus on equity issues that permeate higher education and impact STEM FD It is our sincere hope that this Handbook sparks increased discourse and continued explorations related to STEM FD and in particular the intentional focus of faculty development initiatives to extend to the many facets of academic life
