**Fight Heart Disease Like Cancer** Michael V. McConnell, 2024-01-30 A new approach to understanding preventing and treating heart disease to empower you and your loved ones to live long and healthy lives The main cause of heart disease the world's number one killer of women and men is a cancer like tumor inside the coronary arteries that keep our hearts beating Although this similarity to cancer is well established in medical journals most people and their health care providers don't approach heart disease as seriously as cancer even though it's just as deadly In *Fight Heart Disease Like Cancer* cardiologist Michael McConnell shares the stories of his family patients and research to lay out a modern and effective approach to preventing screening for and treating heart disease like cancer to avoid its dire consequences Dr McConnell highlights the latest research on the substantial overlap between heart disease and cancer from shared risk factors to screening for early detection to new and powerful therapies In accessible language and with personal perspectives from his daughters Mia and Kelly he explains how heart disease grows in similar ways to cancer how to screen for early heart disease prevention techniques that incorporate both a heart healthy lifestyle and medical help when needed simple and powerful therapies to reverse heart disease and prevent heart attacks and strokes digital health technologies including wearable devices and artificial intelligence that broaden access for detecting and monitoring heart disease Dr McConnell through his work with the American Heart Association and the National Fitness Foundation also highlights the many ways our society can reduce heart disease for all *Fight Heart Disease Like Cancer* will guide you step by step on how to prevent screen for and treat heart disease to live a healthier and longer life     *The Iron Age*, 1926     **Four Battlegrounds** Paul Scharre, 2023-02-28 An NPR 2023 Books We Love Pick One of the Next Big Idea Club's Must Read Books An invaluable primer to arguably the most important driver of change for our future P W Singer author of *Burn In* An award winning defense expert tells the story of today's great power rivalry the struggle to control artificial intelligence A new industrial revolution has begun Like mechanization or electricity before it artificial intelligence will touch every aspect of our lives and cause profound disruptions in the balance of global power especially among the AI superpowers China the United States and Europe Autonomous weapons expert Paul Scharre takes readers inside the fierce competition to develop and implement this game changing technology and dominate the future *Four Battlegrounds* argues that four key elements define this struggle data computing power talent and institutions Data is a vital resource like coal or oil but it must be collected and refined Advanced computer chips are the essence of computing power control over chip supply chains grants leverage over rivals Talent is about people which country attracts the best researchers and most advanced technology companies The fourth battlefield is maybe the most critical the ultimate global leader in AI will have institutions that effectively incorporate AI into their economy society and especially their military Scharre's account surges with futuristic technology He explores the ways AI systems are already discovering new strategies via millions of war game simulations developing combat tactics better than any human tracking

billions of people using biometrics and subtly controlling information with secret algorithms He visits China s National Team of leading AI companies to show the chilling synergy between China s government private sector and surveillance state He interviews Pentagon leadership and tours U S Defense Department offices in Silicon Valley revealing deep tensions between the military and tech giants who control data chips and talent Yet he concludes that those tensions inherent to our democratic system create resilience and resistance to autocracy in the face of overwhelmingly powerful technology Engaging and direct Four Battlegrounds offers a vivid picture of how AI is transforming warfare global security and the future of human freedom and what it will take for democracies to remain at the forefront of the world order     **Working Mother** ,2000-10 The magazine that helps career moms balance their personal and professional lives     The Journal of the Armed Forces ,1881     **Working Mother** ,2000-10 The magazine that helps career moms balance their personal and professional lives     *United Mine Workers Journal* United Mine Workers of America,1957     *International Gymnast* ,1978
