Dana deftly elucidates the lives of Millennials, those students growing up around the turn of the 21st century and the technologies embedded into their everyday reading and writing. She shows us how three accessible tools: wikis, blogs, and digital storytelling can be used to scaffold learning for our students. And she demonstrates how they can help us address 10 key issues in the literacies of today's students: safety, authenticity, practice, relevance, meaning, and identity; interest and inquiry; cognitive development; community; process; motivation. Let *iWrite* show you how to capture students' daily literacy practices and develop them for the kind of writing we want them to learn.
