Exploring STEM Environments that Broaden Participation Tyrslai Williams, Renã A. S. Robinson, Zakiya S. Wilson-Kennedy, 2025-09-16 Creating spaces conducive for all students pursuing degrees in STEM is a constant conversation in higher education. Studies establish the need for broad participation in STEM and the barriers in place that prevent matriculation through critical junctures. Through these studies, several suggestions and recommendations suggest supporting students through advising, mentoring, and research experience. Very little is discussed about the tools and strategies needed to enhance students' own development of self-efficacy and self-identity through mentorship in formal environments like the lab, classroom, and departments but also in informal STEM environments like bridge programs, organizational involvement, and mentoring groups. While the environments seem very different, the mission of dynamic approaches to student progression is apparent. Furthermore, understanding how the support evolves at each critical juncture is critical to the way in which the future of STEM will advance.

Emerging Stronger Jeffrey Chin, Michele Lee Kozimor, 2023-08-31 Responding to the sudden and far-reaching implications of the COVID-19 pandemic in college classrooms and on campus, *Emerging Stronger* assembles an original compilation of chapters that revisit, reframe, and refine the practice of teaching in a fundamentally altered landscape. Cultivated from a wide array of different fields from sociology and political science to literature and secondary education, expert contributors to this volume extend their scholarship on teaching and learning and offer thoughtful pieces about curricular innovation, teaching tools and techniques, and evidence-based approaches that will interest dedicated faculty in any discipline. The chapters fall into three categories: Modalities of Teaching and Learning, Pedagogical Strategies, and Student Engagement, each of which carries an all-important focus on what readers should know about best practices now and for the foreseeable future. Whether experienced faculty scholars just starting out in their teaching careers or aspiring graduate students, readers of this volume will come away with great techniques and strategies but also community hope and opportunity to strengthen their teaching and provide better learning environments in their classrooms.

The Post-Pandemic Library Handbook Julie Todaro, 2022-02-15 The *Post-Pandemic Library Handbook* provides an approach for re-opening, re-engineering, and redesigning library facilities, resources, services, and staff. American Library Association Past President Julie Todaro developed this Handbook to provide a path forward for all types and sizes of libraries. She uses narrative and technical writing with dozens of checklists, examples, recommendations, and 30 tables to take a detailed look at where we are and where we need to be. Because no function, resource, or service was left unaffected by the pandemic, chapters and tables allow readers to assign their own timelines to stages. Handbook chapters include Facilities, Services, Support, and Storage; Spaces, Collections, and Resources; Assessment and Accountability; Human Resources; Critical Training and Education; Communication during Emergency Events; Management and Organizational Design; Unique Issues; Leadership during Extreme Emergencies; The Pandemic Pitfalls: Problems, Mistakes, and Failures; Service Access and Delivery.

and Public Relations Marketing and Branding Appendices feature tools for operational and strategic planning an approach for prioritizing current and upcoming pandemic information and an annotated list of 28 resources tracked during the COVID years to assist in updating data for background and decision making Career Services and Workforce Development Centers for Libraries Raymond Pun, Arpine Eloyan, Michael R.
