*Artificial Intelligence Literacy in Higher Education* Imre Fekete, 2025-07-08 This book explores the concept of artificial intelligence (AI) literacy within higher education, addressing both instructors and students. It prepares readers to engage with AI technologies responsibly and effectively. By synthesizing existing frameworks and empirical studies alongside presenting two original research studies, the book bridges theoretical foundations with practical applications tailored for modern educational contexts. Practical recommendations include methods to develop AI literacy skills, focusing on ethical awareness, technological competence, and the potential for AI to enhance teaching and learning processes. Aimed at higher education instructors, stakeholders, and students, the book offers actionable insights and tools for fostering informed and critical engagement with AI, aligned with lifelong learning goals and professional development needs.

Teaching AI in Film and Media Studies Bridget Kies, Mel Stanfill, 2025-11-25 A timely intervention into the role of AI in teaching film and media studies, this book offers insights into how scholars and educators can adapt their approaches in the face of emerging technologies. Exploring the intersection of generative AI with film and media studies, this book highlights the importance of addressing AI in the classroom. It advocates for teaching AI literacy as an extension of media literacy, encouraging students to understand AI's biases and limitations. It explores the impact of AI on a variety of widely taught topics, including copyright and remix culture, the concept of authorship, and collaborative storytelling in film and media production. It also examines its potential in relation to speculative history and archival research, labor concerns in the media industries, as well as impacts on fans and audiences. The book considers how AI can foster creativity and critical thinking in students as they prepare for future roles in evolving media industries. Each chapter features suggested readings, activities, and assignments that can be implemented in and out of class to reinforce and cultivate AI literacy and proficiency. This book is an essential

resource for faculty members in Film and Media Studies who want to know more about how to engage with generative AI tools in their teaching as well as graduate students taking pedagogy focused courses

*AI and the Creative Economy* Richard Boateng, Sheena Lovia Boateng, Thomas Anning-Dorson, Obed Kwame Adzaku Penu, 2025-05-23 In recent years the profound impact of artificial intelligence AI on fostering new forms of entrepreneurship has become increasingly evident Entrepreneurs worldwide are

harnessing the capabilities of AI to develop innovative solutions and create businesses that address pressing challenges. Despite the growing recognition of AI's potential, there exists a crucial need to deepen understanding and awareness surrounding how individuals are leveraging AI to establish novel ventures. Many entrepreneurs are pioneering initiatives that deploy AI technologies to tackle complex problems. This challenge revolves around the imperative to explore, document, and comprehend the diverse ways in which AI is driving the emergence of new businesses solving real-world problems and reshaping the entrepreneurial landscape. It underscores the necessity for entrepreneurs, researchers, and the wider community to grasp the transformative role of AI in fostering innovation and enabling the creation of businesses dedicated to addressing societal issues. Addressing this challenge will contribute to a more comprehensive understanding of the synergy between AI and entrepreneurship, paving the way for informed and impactful ventures that leverage the full potential of AI technologies. In this respect, the purpose of this book is to offer an in-depth exploration of the intersection between AI and entrepreneurial ventures. The book aims to provide a contemporary and thorough analysis of how AI is playing a pivotal role in shaping new forms of entrepreneurship across various industries. It seeks to illuminate the ways in which entrepreneurs are leveraging AI technologies to drive innovation, address challenges, and create businesses that contribute to societal progress. Focusing on the intersection of AI and the creative economy, this book examines the role of AI in content creation, social media, and influencer entrepreneurship. It provides a snapshot of current research, identifies gaps in knowledge, and presents case studies of content creators who have successfully integrated AI into their workflows. This book highlights the impact of AI on various forms of content creation, including educational, lifestyle, health, and entertainment content. It also includes a comprehensive syllabus for training entrepreneurs on leveraging AI for content creation, emphasizing the balance between technological advancements and maintaining authenticity.

How AI Will Change Your Life Patrick

Dixon, 2024-09-12 Artificial Intelligence will create gigantic benefits for humankind but will become more powerful than many governments with purposes and plans of its own and the ability to alter the very basis of life on earth. Many believe that AI poses a threat to human dominance. In this punchy follow-up to his bestselling *The Future of Almost Everything*, leading futurist Patrick Dixon has written an in-depth but accessible exploration of AI, looking at the future of the subject and assessing both threats and benefits from health and education to cybersecurity, business, and the world of work. *How AI Will Change Your Life* looks at likely outcomes for both individuals and businesses in all areas of life and provides advice for the reader and a charter for governments to exploit the benefits and avoid the risks.
