**Exploring Technology-Infused Education in the Post-Pandemic Era** Tomei, Lawrence A.,Carbonara, David D.,2024-08-05 In the aftermath of the 2020 2022 pandemic educators find themselves grappling with the decision to revert to traditional instructional methods or embrace the transformative power of 21st century technologies The swift integration of virtual classrooms videoconferencing and social media during the pandemic has left teachers navigating uncharted territory Many who once vehemently resisted technology now stand on the precipice of a digital revolution in education This dichotomy poses a pressing problem a dearth of documented research and guidance for educators seeking to measure the true value of these technologies in the post pandemic era Exploring Technology Infused Education in the Post Pandemic Era offers guidance and solutions to the challenges faced by educators As teachers stand on the brink of a pivotal decision the research community lags behind in providing the necessary insights to inform their choices The questions loom large What technologies emerged during the pandemic and have they proven effective in the classroom Can these innovations seamlessly coexist with traditional instructional methods The void in documented research leaves educators in a quandary lacking the evidence needed to make informed decisions about the integration of technology into their teaching practices This critical gap impedes progress and hinders the unleashing of the full potential of 21st century educational tools

*The Transfer of Knowledge through Art and Visualization* Anna Ursyn,2023-12-06 This book offers strategies for the

transfer of knowledge through combining information technology and visual arts and examining how to visually enhance and convey knowledge. Specifically, it presents a fresh look at how technology-based science-inspired projects can be innovatively delivered through artistic methods. It explores a selection of inventions gained through the collaboration of internationalist professionals in various fields of knowledge before outlining a new approach in how knowledge can be delivered using the inventions in a novel visual way through action-based visual storytelling, video, graphical display, and visualization. Crucially, it looks at how current media and techniques used for presenting topics in industries, corporations, commerce, and marketing companies could be successfully translated and developed as a presentation skill in the school, college, or university environment. It thus seeks to address the skills that prospective employers expect from students in terms of possessing the ability to create visual presentations of data, solutions, and products. With a sharp focus on the current generation, schools, academies, business, and marketing companies, and catering to the modern demand for novelty in presentation, it makes a strong contribution to the conversation around professional collaboration, visual communication, knowledge transfer, novel technologies, and knowledge visualization.

The COVID-19 Impact on Higher Education Stakeholders and Institutional Services Michael G. Strawser, 2022-06-06. The COVID-19 Impact on Higher Education Stakeholders and Institutional Services provides different perspectives regarding the impact of COVID-19 on the institutional functionality of universities and colleges. Contributors argue that although the quick pivot to online in 2020 was unique to the times, the ramifications of this institution altering shift far exceeded expectations as the pandemic forced higher education institutions to reconsider their daily operations. This collection demonstrates that there is much to be learned from the collective institutional responses to the pandemic. Scholars of communication and education will find this book particularly useful.
