Centering Indigenous Standpoints through Mediated Communication Ben R. LaPoe, Victoria L. LaPoe, 2025-12-11. *Centering Indigenous Standpoints through Mediated Communication* explores how different forms of Indigenous media, including social media, are significant advocacy and educational methods of resistance against repeated attempts at genocide, erasure, misrepresentation, vilification, forced assimilation, and stereotyping perpetuated by colonial systems. Ben R. LaPoe II and Victoria L. LaPoe argue that unlike mainstream media operating under settler principles, Indigenous media privileges Indigenous life experiences, emphasizes Indigenous contexts, honors Indigenous social customs, amplifies Indigenous voices, and incorporates Indigenous worldviews. The book introduces readers to these intersections of Indigenous knowledge and explores the ways in which narrative advocacy empowers and benefits those who communicate their own voices and experiences. Through a multi-method approach and analyses of Indigenous social media posts through the framework of Indigenous Standpoint Theory (IST), the authors identify Indigenous advocacy/renovation efforts on mainstream social media platforms and demonstrate how different platforms can impact communities and act as a form of source sovereignty. Ultimately, the results of these analyses position IST as a key approach to supporting the decolonization of knowledge and advocacy in media spaces.

Co-Intelligence Ethan Mollick, 2024-04-02. AN INSTANT NEW YORK TIMES BESTSELLER. From Wharton professor and author of the popular One Useful Thing Substack newsletter, Ethan Mollick comes the definitive playbook for working, learning, and living in the new age of AI. Something new entered our world in November 2022: the first general-purpose AI that could pass for a human and do the kinds of creative, innovative work that only humans could do previously. Wharton professor Ethan Mollick immediately understood what ChatGPT meant after millions of years on our own. Humans had developed a kind of co-intelligence that could augment or even replace human thinking. Through his writing, speaking, and teaching, Mollick has become one of the most prominent and provocative explainers of AI, focusing on the practical aspects of how these new tools for thought can transform our world. In *Co-Intelligence*, Mollick urges us to engage with AI as co-worker, co-teacher, and coach. He assesses its profound impact on business and education using dozens of real-time examples of AI in action. *Co-Intelligence* shows what it means to think and work together with smart machines and why it's imperative that we master that skill. Mollick challenges us to utilize AI's enormous power without losing our identity, to learn from it without being misled, and to harness its gifts to create a better human future. Wide-ranging, hugely thought-provoking, optimistic, and lucid, *Co-Intelligence* reveals the promise and power of this new era.
