Leveraging Today's Social Media Mark D. Benigni, Barbara A. Haefner, Susan O. Moore, Jeffrey F. Solan, 2025-12-11. *Leveraging Today's Social Media: Its Role in School District Improvement and Success* chronicles the experiences of two superintendents, Mark Benigni and Jeff Solan, as they navigate the challenges and opportunities of social media in their respective school districts. Acknowledging the concerns surrounding online safety and digital citizenship, the authors emphasize the crucial role of education in empowering students to thrive in the digital age. Explore how schools can leverage social media to enhance student learning, from showcasing student work and facilitating college connections to improving communication with families and fostering community engagement. It provides practical guidance on implementing digital citizenship programs, developing appropriate social media policies, and harnessing the power of online platforms for recruitment, professional development, and operational efficiency. Through their shared insights and real-world examples, Benigni and Solan offer a valuable resource for educators seeking to navigate the complexities of social media and unlock its potential to transform teaching and learning. They encourage exploring social media's potential in various school functions before jumping on the bandwagon.

The Implications of new Technology, particularly Artificial intelligence (AI) for International Politics Malam Wasai, 2023-09-18. Submitted Assignment from the year 2023 in the subject Politics General and Theories of International Politics, language English. Greater scrutiny is necessary because AI will have a significant impact on international relations, such as putting new topics on the international agenda, challenging geostrategic relations, serving as a tool for diplomats and negotiators, and creating new opportunities and concerns about protecting human rights. Scholars and diplomats have found it helpful to think about the different things that affect international relations by breaking them down into three levels of analysis: individual, state, and international. State-level analysis examines the foreign policy behavior of states in terms of state characteristics. For example, some scholars say that all democracies behave a certain way; they don't fight with other democracies. Artificial intelligence impacts governance. As AI continues to evolve and permeate various aspects of our lives, its implications for AI and how it impacts businesses. AI artificial intelligence refers to machines that can perceive, intelligence, synthesize, and infer information. It is the science and engineering of intelligent machines that can mimic human intelligence to perform tasks and then on the information they collect, improve themselves. Based AI is designed to significantly enhance human capabilities and contributions, making it a valuable business asset.
