Escape Freelancing And Build Real Equity: Stop Trading Time, Start Owning Assets Simon Schroth, 2025-04-23 Freelancing can be an excellent way to earn income but it doesn't build long term wealth or equity. **Escape Freelancing and Build Real Equity** teaches you how to transition from a time for money model to building a business that generates wealth and owns valuable assets. This book covers how to develop a productized service or digital product, invest in assets like intellectual property and create a brand that increases in value over time. You'll learn how to build systems that automate your business operations, leverage recurring revenue models and hire a team to scale your business. The book also provides strategies to create a lasting legacy that generates passive income even when you're not actively working. If you want to escape the endless cycle of freelancing and build real wealth, **Escape Freelancing and Build Real Equity** gives you the tools to create long term scalable assets.

Investment Aftercare Explained Carolina Arriagada Peters, David Coble, Toby X. Li, Brendan Lewis, 2021-11-29 This book is the first to systematically map the last step of the foreign investor's journey usually referred to as post investment aftercare or business retention and expansion. It provides a wide range of approaches and strategies for host economies to better retain foreign investors, encourage follow on expansions and achieve greater local economic embeddedness through a multi stakeholder dialogue leading to improvement of the overall business climate. Global foreign direct investments reached US 1.5 trillion in 2019 but this figure reduced by over 42% in 2020 due to the pandemic. Against this backdrop retaining established investors became even more important. Numerous organisations all over the world are dedicated to attracting foreign companies to invest in their markets. Facilitating this effort is a dynamic and competitive industry that involves international organisations supporting capacity building, think tanks, academia and consultants. However, once foreign companies decide to invest, a critical question arises: how can host economies grow and retain these foreign investments? Many host governments could do much better as there is very little post investment support for these foreign companies to help them grow their businesses throughout different stages of investment, business and economic cycles. This is where aftercare comes in. In this book, the authors include diverse examples from around the world to demonstrate aftercare best practices in action. This book is an essential read for all public administration staff related to FDI attraction and promotion, practitioners in the private sector and FDI consultants. It will also be of great interest to multilateral organisations seeking to organise seminars and training courses for capacity building. The book will also benefit researchers, academics and postgraduate students of international relations, foreign trade and internationalisation.
