Defending Democracy in an Age of Sharp Power William J. Dobson, Tarek Masoud, Christopher Walker, 2023-07-25 This contributed volume will deepen our understanding of how sharp power is reforging international politics **Fight for Liberty** Mark Lasswell, 2018-10-16 Anne Applebaum Garry Kasparov Richard North Patterson and a constellation of other thinkers make the urgent case for liberal democracy reinvigorating its central values in an age of doubt and discord Liberal democracy is in crisis around the world besieged by authoritarianism nationalism and other illiberal forces Far right parties are gaining traction in Europe Vladimir Putin tightens his grip on Russia and undermines democracy abroad and America struggles with poisonous threats from the right and left But the defenders of democracy are strong too Taking their cues from the 1788 Federalist Papers the Renew Democracy Initiative is a collective of pro democracy advocates from across the political spectrum including Anne Applebaum Garry Kasparov Max Boot Bret Stephens Ted Koppel and Natan Sharansky This book is their foundational document a collection of essays that analyze the multi pronged threats to liberal democracy in the U S and abroad and offer solutions based on fundamental democratic principles such as freedom of speech a free press and the rule of law Fight for Liberty is a roadmap for the struggle against the rising tide of extremism and a cri de coeur in defense of the liberal world order which sees itself threatened as never before today *Defending Democracy in an Age of Sharp Power* William J. Dobson, Tarek Masoud, Christopher Walker, 2023-07-25 Explores how authoritarian regimes are deploying sharp power to undermine democracies from within by weaponizing universities institutions media technology and entertainment industries The world's dictators are no longer content with shoring up control over their own populations they are now exploiting the openness of the free world to spread disinformation sow discord and suppress dissent In *Defending Democracy in an Age of Sharp Power* editors William J Dobson Tarek Masoud and Christopher Walker bring together leading analysts to explain how the world's authoritarians are attempting to erode the pillars of democratic societies and what we can do about it Popular media entertainment industries universities the tech world and even critical political institutions are being manipulated by dictators who advance their regimes interests by weakening democracies from within Autocrats use of sharp power constitutes one of the gravest threats to liberal representative government today The optimistic early twenty first century narrative of how globalization the spread of the internet and the rise of social media would lead to liberalization everywhere is now giving way to the realization that these same forces provide inroads to those wishing to snuff out democracy at the source And while autocrats can do much to wall their societies off from democratic and liberal influences free societies have not yet fully grasped how they can resist the threat of sharp power while preserving their fundamental openness and freedom Far from offering a counsel of despair the international contributors in this collection identify the considerable resources that democracy provides for blunting sharp power's edge With careful case studies of successful resistance efforts in such countries as Australia the Czech Republic and Taiwan this book offers an urgent message for

The Israeli response to Jewish extremism and violence Ami Pedahzur, 2013-07-19 This book looks at the theoretical issue of how a democracy can defend itself from those wishing to subvert or destroy it without being required to take measures that would impinge upon the basic principles of the democratic idea It links social and institutional perspectives to the study and includes a case study of the Israeli response to Jewish extremism and violence which tests the theoretical framework outlined in the first chapter There is an extensive diachronic scrutiny of the state s response to extremist political parties violent organizations and the infrastructure of extremism and intolerance within Israeli society The book emphasises the dynamics of the response and the factors that encourage or discourage the shift from less democratic and more democratic models of response An electronic edition of this book is freely available under a Creative Commons CC BY NC ND licence

Defending Democracy from Its Christian Enemies David P. Gushee, 2023-10-03 American democracy is in danger How do we protect it from authoritarian reactionary Christianity On January 6 2021 hundreds of Americans stormed the Capitol to prevent the certification of their political opponent s election At the forefront were Christians claiming to act in the name of Jesus Christ and his supposed representative on earth Donald Trump How can this have happened David P Gushee tackles the question in this timely work of Christian political ethics Gushee calls us to preserve democratic norms including constitutional government the rule of law and equal rights for all even as many Christians take a reactionary and antidemocratic stance Surveying global politics and modern history he analyzes how Christians have discarded their commitment to democracy and bought into authoritarianism He urges us to fight back by reviving our hard won traditions of congregational democracy dissident Black Christian politics and covenantal theology Defending Democracy from Its Christian Enemies makes a robust case for a renewed commitment to democracy on the part of Christians not by succumbing to secular liberalism but by drawing on our own best traditions Any concerned Christian will leave its pages with eyes wide open to the dangers of our current form of political engagement Readers will gain insight into what democracy is truly meant to be and why Christians once supported it wholeheartedly and should do so again

Let My Children Go, Ye Leviathans (Governments) Kwei-Armah , This book looks at the traditional answer to the question of man s freedom on earth the answer that holds that for man to be free he needs to be made to become a perpetual subject And dismisses it This work submits that man is not born to be a subject but a free man Because it contends that contrary to Rousseau s thoughts man is born in chains and that it is these chains that he must learn to break to be free It subsequently submits that for man to be able to break his chains he needs to be made to become his true self and shows how

to make man become his true self **Inter-American Relations** Joshua Hyles,2017-06-23 This volume is a collection of essays presented at the 20th annual Eugene Scassa Mock Organization of American States conference which is the nation's only hybrid conference including an inter collegiate competition and simulation of the Organization of American States a moot court simulation of the Inter American Court of Human Rights and a traditional academic conference for faculty and graduate students centered on the study of Inter American relations and politics within the Western Hemisphere The conference invited recognized authorities and promising new scholars in the vastly varied fields associated with Latin American studies Taking a broad view of the academic study of the Western Hemisphere the conference and subsequently this volume includes research from fields as diverse as international law spatial geography literature religion political science and history Taken together these essays provide a fascinating multi dimensional look at the intricate relationships between the politics and cultures of the Americas Defending Democracy David M.
