Definitely Danish Paperback:

The Reformation and the Book Jean-François Gilmont, 2016-12-05 Although the connection between the invention of printing and the Protestant Reformation of the sixteenth century has long been a scholarly commonplace there is still a great deal of evidence about the relationship to be presented and analysed This collection of authoritative reviews by distinguished historians deals with the role of the book in the spread of the Reformation all over the continent identifying common European experiences and local peculiarities It summarises important recent work on the topic from every major European country introducing English speakers to much important and previously inaccessible research **Lost Books** Flavia

Bruni, Andrew Pettegree, 2016-04-19 Questions of survival and loss bedevil the study of early printed books Many early publications are not particularly rare but many have disappeared altogether Here leading specialists in the field explore different strategies for recovering this lost world of print *The Publishers' Circular and Booksellers' Record*, 1923

British Books, 1922 **A Different Thermodynamics and its True Heroes** Evgeni B. Starikov, 2019-04-01 Modern thermodynamics is a unique but still not a logically self consistent field of knowledge It has a proven universal applicability and significance but its actual potential is still latent The development of the foundations of thermodynamics was in effect non stop but absolutely no one has any idea about this This book is the first of its kind that will motivate researchers to build up a logically consistent field of thermodynamics It greatly appreciates the actual depth and potential of thermodynamics which might also be of interest to readers in history and philosophy of scientific research The book presents the life stories of the protagonists in detail and allows readers to cast a look at the whole scene of the field by showcasing a significant number of their colleagues whose works have fittingly complemented their achievements It also tries to trigger a detailed analysis of the reasons why the actual work in this extremely important field has in effect gone astray It comprises five chapters and introduces three scientists in the first two chapters which are specifically devoted to the Scandinavian achievements in macroscopic thermodynamics These introductions are novel and call for a detailed reconsideration of the field The third chapter acquaints the readers with their fourth colleague in Germany who was working on the proper link between the macroscopic thermodynamics kinetics and the atomistic representation of matter The fourth chapter brings in their fifth colleague in the United States who could formally infer the famous formula $S = k \ln W$ ingeniously guessed by Ludwig Boltzmann and thus clarify the physical sense of the entropy notion The last chapter summarizes the above mentioned discourses Book Trade Catalogues in Early Modern Europe Arthur der Weduwen, Andrew Pettegree, Graeme

Kemp, 2021-07-19 This edited collection offers in seventeen chapters the latest scholarship on book catalogues in early modern Europe Contributors discuss the role that these catalogues played in bookselling and book auctions as well as in guiding the tastes of book collectors and inspiring some of the greatest libraries of the era Catalogues in the Low Countries Britain Germany France and the Baltic region are studied as important products of the early modern book trade and as

reconstructive tools for the history of the book These catalogues offer a goldmine of information on the business of books and they allow scholars to examine questions on the distribution and ownership of books that would otherwise be extremely difficult to pursue Contributors Helwi Blom Pierre Delsaerdt Arthur der Weduwen Anna E de Wilde Shanti Graheli Ann Marie Hansen Rindert Jagersma Graeme Kemp Ian Maclean Alicia C Montoya Andrew Pettegree Philippe Schmid Forrest C Strickland Jasna Tingle Marieke van Egeraat and Elise Watson **The Collectors Club Philatelist** Collectors Club (New York, N.Y.),1925 Vol for 1928 includes translations from Khol s Handbook **From Gutenberg to Luther** Wolfgang Undorf,2014-04-07 Printed book cultures in Scandinavia before 1525 were formed by their vicinity to expanding European book markets Collections of prints were founded decisions on printing books in Scandinavia were based upon thorough knowledge of what printers on the continent achieved in question of volume quality and price Building on a large database of contemporary provenances and statistical analyses of every possible aspect of peripheral book markets as well as on new readings of many old and new sources this book recalibrates scholarly looks on Scandinavian book history before the Reformation The result is a fresh portrait of a dynamic period in cultural history which places Scandinavia though in the geographical periphery of Europe in the middle of European printing **The Publishers Weekly** ,1923 **Australian Book Review** ,1969 **The Sketch** ,1893 **Authors Digest: Edmund About to Émile Zola** Rossiter Johnson,1927 **Edmund About to Émile Zola** Rossiter Johnson,1908 *The Publisher and Bookseller* ,1929 Official organ of the book trade of the United Kingdom Modern Danish Bookbindings Henrik Park,1950 **The Art of Raw Food** Jens Casupej,Vibeke Kaupert,2014-02-18 Raw food is for everyone say the authors of one of Denmark s best selling cookbooks and they make a compelling case for that claim Equally at home on the coffee table or in the kitchen The Art of Raw Food features gorgeous four color photography and delicious yet simple raw food recipes as well as a background on the benefits of a raw food diet Jens Casupej and Vibeke Kaupert raw food enthusiasts with a flair for style as well as a passion for healthy living introduce readers to the good raw food the bad processed food and the ugly how processed food can make you feel Sixty pages of information on health and diet are followed by 260 pages of mouth watering recipes In 140 recipes the authors cover breakfast Delicious Buckwheat Porridge shakes and smoothies Orange and Blackcurrant Shake soups Light and Fluffy Pepper Bisque main dishes Chili Sin Carne soups dips and pat s Olive Tapenade desserts Pineapple Carpaccio with Berry Coulis snacks Quetzalcoatl Chocolate and sauces and dressings Sunflower and Beetroot Sauce A terrific introduction to the world of raw foods for any newcomer Raw Food offers plenty of diverse and unique recipes for every occasion The Art of Raw Food official website <http://theartofrawfood.com> The Snake's Pass Bram Stoker,1909 Literary Market Place ,2003 The directory of the American book publishing industry with industry yellow pages *The Book Collector* ,1987 **Author's Digest** Rossiter Johnson,1908
